US totals are based on states reporting.

This table uses data from URS/DIG Table 16

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

**State Notes:**

The number of "Not Available" clients receiving service in an EBP may exceed the number of "Not Available" clients that are SED or SMI because we use two data sources for the data and are not able to match client IDs between them at this time.
