Table Number	General Notes
All	DMHSA had implemented its data collection software, called TIER in FY 2007. Programs serving SMI population were included in the program. However, comprehensive data input for children's services as well as data relating to EBP's co-occurring disorder, school attendance, criminal justice, living situation, and other tables not having data, did not occur in FY 2007. It is the goal of DMHSA for 2008 to fully implement the TIER program.
