 Data based on Medicaid Eligibility, not Claims -

5a Age None

5a Gender None

5a Overall Unduplicated at the hospital and unduplicated at the community but duplicated between the hospital and community. There has been a concerted effort to focus the non-Medicaid on persons who do not also have recourse to service through Medicaid. Likewise, there is a continuing effort to identify when Medicaid would be the appropriate payer. We have also pushed LMEs to focus services on the most in need, which reduces the number served with non-Medicaid dollars.

5b Overall Unduplicated at the hospital and unduplicated at the community but duplicated between the hospital and community.

**Note:**

Admission Rate = number of admissions divided by total served during the year.

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3, State Total Served During Year is calculated using data from URS/DIG Tables 3.

This table uses data from URS/DIG Tables 3 and 6.

**State Notes:**

3 Age None

Gender None

Overall Unduplicated at the hospital and unduplicated at the community but duplicated between the hospital and community

6 Hospital None

Other Inpatient None

Residential The number of clients admitted to the residential treatment facilities is very small, so a small deviation in admissions for a year could result in a substantial increase or decrease percentage wise.

Community None

Overall Unduplicated at the hospital and unduplicated at the community but duplicated between the hospital and community.

**Note:**

US totals are based on states reporting.

This table uses data from URS/DIG Table 16

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

**State Notes:**

The numbers of persons served by Multisystemic Therapy are small. This service began March 20, 2006, so it was only available for a small portion of SFY 2006 as opposed to the entire year in SFY 2007. There are still only a few providers across the state.

**Note:**

US totals are based on states reporting.

This table uses data from URS/DIG Table 16.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

**State Notes:**

The numbers of persons served by Multisystemic Therapy are small. This service began March 20, 2006, so it was only available for a small portion of SFY 2006 as opposed to the entire year in SFY 2007. There are still only a few providers across the state.
