5a Overall As the Division and the community mental health centers have continued over the last year to work closely together to collect and provide the most accurate data possible, providers have worked hard on reporting individual's funding support more appropriately and in the correct category. This is a possible explanation for the high change in total number of individuals served that report funding through both Medicaid and non-Medicaid sources.

Forensics included in "non forensic" data?

Not reported

Note:

US totals are based on states reporting.

This table uses data from URS/DIG Table 20.

* Reported under Hispanic Origin

State Notes:

The Human Services Center is increasing efforts to transition long term care patients to community settings, which could be a factor in the increase in readmission rates. Efforts to improve successful community transitions are ongoing.
