Are Client Counts Unduplicated?

Duplicated between Hospitals & Community

Number States with Unduplicated Counts

39

Note:

This table uses data from URS/DIG Table 2a, Table 2b and from the US Census Bureau.

All denominators use US Census data from 2006.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

Regional groupings of States based on SAMHSA's Block Grant Regions.

* Reported under Hispanic Origin

State Notes:

2A: Age May be duplication between persons served in DMHAS and DCF systems for persons age 18 to 21 years old.

Gender None

Race: For DMHAS, 76.8% (8,258) of "Race Not Available" represents clients race designated at "Other".

Overall: Unduplicated count for adults is across DMHAS system.

2B: Age May be duplication between persons served in DMHAS and DCF systems for persons age 18 to 21 years old.

Gender None

Race: None

Overall: None

Note:

This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau.

All denominators use US Census data from 2007.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

Regional groupings of States based on SAMHSA's Block Grant Regions.

* Reported under Hispanic Origin

State Used Federal SMI Definition? No

DMHAS uses only diagnosis to determine SMI and does not include level of functioning.

State Used Federal SED Definition? -

State Notes:

14a Age DCF: Ages 0 through 17 and some 18 to 20: The numbers shown in Table 14 are the total number of children served. Not all children served have the SED diagnosis. Approximately 60% have an SED diagnosis.

Gender None

Race None

Overall For adults, data are missing for 19,269 persons, or 38.5% of persons served as they have a deferred diagnosis.

14b Age None

Gender None

Race None

Overall None

Forensics included in "non forensic" data?

No

Note:

US totals are based on states reporting.

This table uses data from URS/DIG Table 20.

* Reported under Hispanic Origin

State Notes:

None

STRUCTURE DOMAIN: TABLE 1: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2006**STATE: Connecticut**

	Expenditures: State	Percent of Total Expenditures: State	Expenditures: U.S.	Percent of Total Expenditures: U.S.
State Hospitals-Inpatient	\$179,100,000	30%	\$8,547,699,317	27%
Other 24-Hour Care	\$123,200,000	21%	\$5,801,277,824	19%
Ambulatory/Community	\$224,700,000	38%	\$16,045,001,581	52%
TOTAL	\$591,600,000	-	\$31,116,017,304	-

Note:

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2006 report, Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. Totals are based on 51 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:

<http://www.nri-inc.org/projects/Profiles/RevenuesExpenditures.cfm>

STRUCTURE DOMAIN: TABLE 2: State Mental Health Agency Controlled Revenues by Funding Source, FY 2006

STATE: Connecticut

	State Hospital: State Revenues	State Hospital: Percent Total: State	State Hospital: Percent Total: U.S.	Ambulatory/ Community: State Revenues	Ambulatory/ Community % Total: State	Ambulatory/ Community % Total: U.S.

General Notes: Connecticut, FY 2008

Table Number	General Notes
2A	Age: Duplication between persons served in DMHAS and DCF for persons age 18-21 years old. Race: For DMHAS (Adults) 76.8% (8,258) of "Race Not Available" represents clients race designated as "other".
2B	Age: Duplication between persons served in DMHAS and DCF for persons age 18-21 years old.
4	DMHAS used most recent status on record (at admission or at discharge for all adults).
5A	The row category "Both Medicaid and non-Medicaid" is DCF clients only. Data has been based on clients Medicaid status (DMHAS) and/or Medicaid reimbursability (DCF) of the given service that the client has received.
8	MHA Activities Other Than Those Above: DMHAS: CT's five Regional Mental Health Boards (RMHBs) represent the Adult State Mental Health Planning Council at the sub-state /regional level providing program evaluation, planning and needs assessment to the Council and CT DMHAS. MHA Technical Assistance and Planning Council Activities: DCF: Expenditures of the Children's Behavioral Health Advisory Council.
11	Adult Survey Approach: Methodology of Collecting Data: The data was handed out and self-administered.
12	Populations Served: DMHAS: The percent of adults reported by DMHAS as having SMI is based upon individuals served in State-operated programs only, with a Dx code 295, 296, or specified 297 or 298.
12	Description of how the DCF calculates the number of children with co-occurring disorders: number of children with SA related diagnosis divided by total served in community-based programs.
12	DMHAS has a unique identifier and reports unduplicated figures across community-based and inpatient services. DCF has duplicated across state hospital and community programs and within community programs. DCF has entered a contract with the Corporation on Standards and Outcomes to develop an enhanced, web-based behavioral health information system. DCF will require an unduplicated case count through use of the client name as the unique identifier for all contract providers to assure non-duplication.
14 A and B	For adults, data are missing for 38.5% (19,269) of persons served with a deferred diagnosis. SMI: DMHAS uses only diagnosis to determine SMI and does not include level of functioning. Diagnosis in SMI Definition: Dx Code of 295 and 296.
14 A and B	Regarding SMI persons served, Tables 12, 14A and B differ as to the analytic method employed. Table 12 includes only persons served in the state-operated programs. Table 14 includes all adults served in both DMHAS-operated and community programs who have a determined SMI. In the analysis for Tables 14A and B, 38.5% of all persons had a deferred or unknown diagnosis. For adults, crisis episodes have been included and are more likely to have a deferred or unknown diagnosis.
16	Total Unduplicated Adults: SMI: DMHAS uses only diagnosis to determine SMI and does not include level of functioning. Diagnosis in SMI Definition: Dx Code of 295 and 296.
16	Supported Housing: Data for Clients receiving EBP Supportive Housing. Could include SMI and non-SMI clients. Supported Employment: Data for Clients receiving EBP Supportive Employment. Could include SMI and non-SMI clients.
16	The total number of unduplicated adults with SMI served, age not available, is less than the sum of adults receiving any of these services in the same category. Data is not collected at the client level, but at the program level. The supported housing and supported employment data are in separate databases. The supported employment data is hand-counted and demographics are not recorded. Cannot separate persons receiving these EBPs by SMI and non-SMI.
16	We offer supported employment and count how many consumers are receiving SE but do not collect demographic information on those consumers when they receive SE; therefore, the total number with SMI will be less than the number of consumers receiving SE. Supportive Housing includes Shelter Plus Care (S+C), PILOTS, Next Steps and Bridge Subsidy. Supported Employment and Supportive Housing are in separate databases from the mental health data (Table 14A).
17	Integrated Treatment for Co-Occurring Disorders (MH/SA): Data for Clients receiving EBP IDDT Treatment for Persons with SMI and SA disorders.
20 A and B	DMHAS: Adult discharges are in CY 2007 and readmissions are from January 1, 2007 through June 30, 2008.
