This table uses data from URS/DIG Tables 16 and 17

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

T16 The data for Supported Housing and Supported Employment came from different sources. Therefore the corss link of the patient population is not the same. Also, there is no age breakdown for Adults with SMI therefore the total is greater than the total with SMI.

T17 None
