

Kansas 2008 Mental Health National Outcome Measures (NOMS): CMHS Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	6,332,983	38.19	20.69	58
Community Utilization per 1,000 population	5,639,738	38.19	19.15	56
State Hospital Utilization per 1,000 population	173,307	1.49	0.59	51
Other Psychiatric Inpatient Utilization per 1,000	383,904	-	1.51	40

Adult Employment Status	U.S.	State	U.S. Rate	States
Employment Status (percent in Labor Force)	679,084	38%	39%	56
Employment Status (percent with Employment Data)	679,084	34%	21%	56

Adult Consumer Survey measures	State	U.S. Rate	States
Positive About Outcomes	71%	72%	54

Child/Family Consumer Survey measures	State	U.S. Rate	States
Positive About Outcomes	88%	64%	54

Readmission Rates: (Civil "non-Forensic" clients)	U.S.	State	U.S. Rate	States
State Hospital Readmissions: 30 Days	13,771	11.8%	9.3%	48
State Hospital Readmissions: 180 Days	31,720	26.9%	21.3%	49
State Hospital Readmissions: 30 Days: Adults	12,519	12.3%	9.4%	47
State Hospital Readmissions: 180 Days: Adults	29,096	27.9%	21.8%	47
State Hospital Readmissions: 30 Days: Children	1,228	7.6%	8.2%	38
State Hospital Readmissions: 180 Days: Children	2,568	17.4%	17.1%	43

Living Situation	U.S.	State	U.S. Rate	States
Private Residence	3,666,906	74.9%	80.8%	52
Homeless/Shelter	133,656	2.3%	2.9%	50
Jail/Correctional Facility	90,587	0.2%	2.0%	49

Adult EBP Services	U.S.	State	U.S. Rate	States
Supported Housing	65,797	51.2%	3%	34
Supported Employment	40,387	25.9%	2%	41
Assertive Community Treatment	58,502	-	2%	40
Family PsychoEducation	25,127	-	2%	19
Dual Diagnosis Treatment	46,706	21.54%	4%	25
Illness Self Management	147,089	-	9%	22
Medications Management	253,414	-	23%	17

Child/Adolescent EBP Services	U.S.	State	U.S. Rate	States
Therapeutic Foster Care	16,291	1.0%	2%	28
Multi Systemic Therapy	8,126	-	1%	21
Functional Family Therapy	7,027	-	2%	14

Change in Social Connectedness	State	U.S. Rate	States
Adult Improved Social Connectedness	-	73%	51
Child/Family Improved Social Connectedness	-	86%	49

2008 STATE MENTAL HEALTH MEASURES: CMHS Uniform Reporting System Measures

STATE: Kansas

Basic Measures	State Number	Rate	U.S. FY 2008	Rate	States
Indicator 1: Penetration Rate per 1,000 population	106,014	38.19	6,332,983	20.69	58
Indicator 2: Community Utilization per 1,000 population	106,014	38.19	5,639,738	19.15	56
Indicator 3: State Hospital Utilization per 1,000 population	4,137	1.49	173,307	0.59	51
Indicator 4: Medicaid Funding Status	40,100	39%	3,274,788	59%	47
Indicator 5: Employment Status (percent employed)	11,738	34%	679,084	21%	56
Indicator 6: State Hospital Adult Admissions	4,373	1.17	151,981	0.96	51
Indicator 7: Community Adult Admissions	24,765	0.33	3,696,054	0.99	47
Indicator 8: State Hospital LOS Discharged Adult Patients	-	12 days	-	46 days	50
Indicator 9: State Hospital LOS Resident Adult Patients	-	721 days	-	77 days	50
Indicator 10: Percent of Client who meet SMI definition	-	20%	-	69%	55
Indicator 11: Adults with Co-occurring MH/SA Disorders	-	-	-	22%	46
Indicator 12: Children with Co-occurring MH/SA Disorders	-	-	-	6%	45

Basic Measure: Adult Consumer Survey measures	State Rate	U.S. Rate	States
Indicator 13: Positive About Access	80%	85%	54
Indicator 14: Positive About Quality and Appropriateness	80%	87%	54
Indicator 15: Positive About Outcomes	71%	72%	54
Indicator 16: Positive on Participation in Treatment Planning	83%	83%	54
Indicator 17: Positive General Satisfaction with Services	87%	88%	54

Basic Measure: Child/Family Consumer Survey measures	State Rate	U.S. Rate	States
Indicator 18: Positive About Access	87%	84%	53
Indicator 19: Positive about General Satisfaction	84%	83%	54
Indicator 20: Positive About Outcomes	88%	64%	54
Indicator 21: Positive on Participation in Treatment Planning	89%	87%	54
Indicator 22: Positive Cultural Sensitivity of Providers	94%	93%	53

Basic Measure: Consumer Living Situations	State Number	Rate	U.S. FY 2008	Rate	States
Indicator 23: Private Residence	61,437	75%	3,666,906	81%	52
Indicator 24: Jail/Correctional Facility	192	0%	90,587	2%	49
Indicator 25: Homeless or Shelter	1,879	2%	133,656	3%	50

Basic Measure: Hospital Readmissions	State Number	Rate	U.S. FY 2008	Rate	States
Indicator 26: State Hospital Readmissions: 30 Days	524	11.8%	13,771	9%	48
Indicator 27: State Hospital Readmissions: 180 Days	1,194	26.9%	31,720	21%	49
Indicator 28: Readmission to any psychiatric hospital: 30 Days	-	-	48,044	15%	29

Basic Measure: State Mental Health Finance (FY2006)	State Number	Rate	U.S. FY 2008	Rate	States
Indicator 29: SMHA Expenditures for Community MH	\$171,800,000	69%	\$21,846,279,405	70%	51
Indicator 30: SMHA Revenues from State Sources	\$106,600,000	43%	\$13,670,730,381	45%	51
Indicator 31: Total SMHA Expenditures	\$248,700,000	-	\$31,116,017,304	-	51

Developmental Measure	State Number	Rate	US FY 2008	Rate	States
Dev 1: Percent Adults with SMI and Children with SED	35,892	34%	4,204,240	66%	57

Developmental Measure: Adult Evidence Based Practices	State Number	Rate	U.S. FY 2008	Rate	States
Dev 2: Assertive Community Treatment	-	-	58,502	2.3%	54

General Notes: Kansas, FY 2008

Table Number	General Notes
9	Kansas has added the additional Social Connectedness and Functioning questions to the current cycle of our state Consumer Satisfaction Survey for adults. Information for these SAMHSA NOMs will be available for FY2009.
16	The amounts reported in for Supported Housing Services and Supported Employment Services represent those consumers that have received services based on broadly defined federal guidelines. Kansas collects data on a subset of the population receiving Supported Employment Services from CMHC staff trained using the Dartmouth toolkit and monitored for fidelity through a contract between SRS/Mental Health and the University of Kansas. For FY2008, there were 992 adults with SPMI who received Supported Employment Services following this monitoring protocol. This represents 44% of all consumers who have received Supported Employment Services and 11.1% of the total SPMI population.
16	The Kansas SRS/Mental Health Department conducted Supported Housing training in 2006 and 2007 through a contract with the University of Kansas. Kansas CMHCs report that 7,175 consumers with SPMI were living independently and receiving community-based supported housing services. Although the SAMHSA EBP Toolkit is not published at this time, during FY2008 SRS/Mental Health, together with various stakeholders throughout the state, set out to develop our own Supported Housing toolkit which will include a fidelity scale with ongoing progress occurring in fiscal year 2009.
17	The amounts reported for Receiving Integrated Treatment for Co-occurring Disorders (MH/SA) represent those consumers that have received services based on broadly defined federal guidelines. Kansas collects data on a subset of the population receiving Integrated Treatment for Co-occurring Disorders from CMHC staff trained using the Dartmouth toolkit and monitored for fidelity through a contract between SRS/Mental Health and the University of Kansas. For FY2008, there were 321 adults with SPMI who received Integrated Treatment for Co-occurring Disorders following this monitoring protocol. This represents 16.5% of all consumers who have received Integrated Treatment for Co-occurring Disorders and 3.5% of the total SPMI population.
18 & 21	Kansas does not currently have a mechanism to accurately collect information on this population.

METHOD TO DEFINE ADULTS WITH SPMI: FINAL DRAFT

PURPOSE

To insure that adults with Severe and Persistent Mental Illness (SPMI), or who are most at risk of developing SPMI, are promptly and accurately identified.

To insure that those most in need are offered the full array of community-based mental health services necessary to successfully manage their illness, support their recovery process, and live meaningful lives in their community.

APPROACH

Apply two main diagnostic areas of assessment to determine an individual's status as meeting criteria for SPMI: (1) diagnostic criteria, and (2) functional and risk criteria.

STEP ONE

Apply diagnostic criteria to determine an individual's identification as meeting initial criteria for the CSS target population. To meet diagnostic criteria for SPMI, individuals must be assessed to determine whether they have a principle diagnosis in either Category A or Category B.

Category A Diagnoses

295.10 Schizophrenia, Disorganized Type
295.20 Schizophrenia, Catatonic Type
295.30 Schizophrenia, Paranoid Type
295.60 Schizophrenia, Residual Type
295.70 Schizoaffective Disorder
295.90 Schizophrenia, Undifferentiated Type
296.34 Major Depressive Disorder, Recurrent, Severe, with Psychotic Features; Bipolar I Disorders that are Severe, and or/with Psychotic Features.
298.9 Psychotic disorder NOS

Category B Diagnoses

All other Bipolar I Disorders, not listed in Category 1

296.89 Bipolar II Disorder
296.23 Major Depressive Disorder, Single Episode, Severe, Without Psychotic Features
296.24 Major Depressive Disorder, Single Episode, With Psychotic Features
296.32 Major Depressive Disorder, recurrent, Moderate
296.33 Major Depressive Disorder, Recurrent, Severe, Without Psychotic Features
296.35 Major Depressive Disorder, Recurrent, In Partial Readmission
296.36 Major Depressive disorder, Recurrent, In Full Readmission
297.10 Delusional Disorder
300.21 Panic Disorder with Agoraphobia
300.3 Obsessive-Compulsive Disorder
301.83 Borderline Personality Disorder

Category C Diagnoses

The following diagnoses (as a principal diagnosis) are excluded from those defining an individual as having SPMI or being most at risk of SPMI.

- Anti-Social Personality Disorder
- Behavior Disorders
- Developmental Disorders
- Neurological/General Medical Disorders
- Substance Abuse Disorders
- Psychotic Disorder [substance-induced only]
- DSM-IV-R "V" Codes

STEP TWO

To meet functional criteria for SPMI, persons with a primary diagnosis in category A or B must, as a result of their qualifying diagnosis, demonstrate impaired functioning through use of the following assessment. For those with a primary diagnosis in Category A who **do** meet the functional criteria listed below, no further assessment is needed eligibility for CSS. Those with a primary diagnosis in Category B must meet these criteria as well as criteria outlined in Step 3.

Impaired functioning¹ is evidenced by meeting at least one (1) of the first three criteria, **and** at least three (3) of the criteria numbered 4 through 9 that have occurred on either a continuous or intermittent basis over the last two years:

1. Required inpatient hospitalization for psychiatric care and treatment more intensive than outpatient care at least once in her/his lifetime;
2. Experienced at least one episode of disability requiring continuous, structure supportive residential care, lasting for at least two months (e.g. a nursing facility, group home, half-way house, residential mental health treatment in a state correctional facility);
3. Experienced at least one episode of disability requiring continuous, structured supportive care, lasting at least two months, where the family, significant other or friend of the consumer provided this level of care in lieu of the consumer entering formalized institutional services. (In this case, the intake assessment must fully document the consumer's level of severe disability and lack of functioning that required the family or other person to provide this level of care).
4. Has been unemployed, employed in a sheltered setting, or has markedly limited skills and a poor work history;
5. Requires public financial assistance for their out-of-institutional maintenance and is unable to procure such financial assistance without help;
6. Shows severe inability to establish or maintain a personal support system, evidenced by extreme withdrawal and social isolation;
7. Requires help in instrumental activities of daily living such as shopping, meal preparation, laundry, basic housekeeping, and money management;
8. Requires help in attending to basic health care regarding hygiene, grooming, nutrition, medical and dental care, and taking medications. (*Note: this refers to the lack of basic skills to accomplish the task, not to the appropriateness of dress, meal choices, or personal hygiene*);
9. Exhibits inappropriate social behavior not easily tolerated in the community, which results in demand for intervention by the mental health or judicial systems (e.g. screaming, self-abusive

¹ Adults that would have met functional impairment criteria during the referenced time period without the benefit of treatment or other support services are included here.

acts, inappropriate sexual behavior, verbal harassment of others, physical violence toward others).

STEP THREE

For individuals with a primary diagnosis in Category B, eligibility for CSS **always** depends upon a more detailed determination of risk and functional impairment (through face-to-face assessment). Only those with a Category B diagnosis who also meet these additional criteria in Step Three are guaranteed eligibility for Community Support Services (CSS) through a CMHC.

Individuals with a primary diagnosis in Category A do not need to meet the additional criteria in Step Three **unless** they failed to demonstrate impaired functioning as evidenced by the criteria outlined in Step Two.

SRS will make available a tool for CMHC staff to use in making this determination.

RELATED POLICIES:

1. The emphasis on diagnostic categories is for purposes of determining eligibility for CMHC/CSS services only, and is not in any way a recommendation to rely on a person's diagnosis to determine specific treatment approaches or service modalities. It remains a policy of SRS/MHAAPS to reinforce a practice approach that is based on each individual's unique strengths, characteristics, life situation, desires, and resources.
2. CMHC/CSS staff qualified to make determinations regarding a person's SPMI status must meet QMHP statutory criteria as defined by the State of Kansas. It remains the right of CMHC to make a determination of a person's SPMI status for the purposes of being found eligible for CMHC/CSS services.
3. It is the responsibility of any CMHC/CSS staff performing an SPMI determination to fully explain to the individual the purpose of the determination, the process involved, and their rights/appeal process.
4. The access standards as outlined in CMHC contracts with SRS/MHAAPS apply to the process of determining an individual's status in meeting the target population definition criteria.
5. During determination of an individual's status as having SPMI, the person shall have access to a basic package of CMHC services, including medication management, crisis case management and crisis services, substance abuse treatment, and outpatient treatment. For those individuals who do not meet the criteria for SPMI status, but who do need some mental health intervention, they shall continue to have access to this basic package of CMHC services.
6. If a person's status is SPMI at termination of CMHC/CSS services or upon transfer to another CMHC, the person's status shall continue as SPMI upon re-enrollment or transfer.
7. Once an individual is determined to meet SPMI status and is receiving CMHC/CSS services, periodic review of the intensity and frequency of the services being provided will be done with the consumer by the CMHC at least every twelve (12) months, and may be done more frequently as determined by SRS/MHAAPS, the CMHC, or at the consumer's request. SRS QE staff will monitor CMHC/CSS performance in completing these reviews during licensing visits or periodic site visits. Documentation of this review with consumers must be kept in each person's CMHC/CSS records.

8. SRS QE staff will monitor CMHC/CSS performance in accurate application of the process used to determine individuals' SPMI status during licensing reviews or periodic site visits. Documentation of SPMI status demonstrating a person's eligibility to receive CSS services must be kept in each person's CMHC/CSS records.
9. As of September 1, 2001, all CMHC's will use this approach to determine a person's SPMI status and eligibility for CSS. For new enrollees the determination process will be included at intake. For current CSS consumers the determination process will be completed no later than her/his second 90-day review. For those receiving medication services only, the determination process will be completed no later than her/his third 90-day review.
10. For consumers who have been receiving CSS services for more than 6 (six) months prior to September 1, 2001, who have been found that they do not meet the new eligibility criteria, a process of exemption can be made:
 - a. The CMHC will provide through its quality assurance and utilization review process documentation explaining how the level of treatment being provided matches the unique conditions and situation of the consumer, AND how the consumer is actively being transitioned to naturally-occurring community supports'
 - b. The CMHC's Quality Enhancement (QE) staff person will, as a part of her/his licensing visit of periodic site visits, review a portion of consumers' records for whom an exemption to this eligibility determination has been made; and
 - c. The CMHC will report quarterly (in written form) the number of individuals comprising exemptions to the new target population definition process. This report will be made to the CMHC's assigned QE staff person, or to MHAAPS central office if the CMHC lacks a QE assignment. Corrective action may be taken with CMHC's who are making an inordinately large number of exemptions to the new target population definition process.

NOTE: Six to nine months after implementation of this new target population definition procedure, MHAAPS will conduct a review to determine its effectiveness. Adjustments may be made in any or all sections of the definitional approach depending on results from the review process. To that end, CMHC's will need to be prepared to report data to MHAAPS or its contracted agent concerning implementation of this approach to defining the target population.
