Note:

This table uses data from URS/DIG Table 2a, Table 2b and from the US Census Bureau.

All denominators use US Census data from 2006.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

Regional groupings of States based on SAMHSA's Block Grant Regions.

* Reported under Hispanic Origin

State Notes:

2A: Age Age was calculated as follows: [(July 1, 2007 - (Consumer Birth Date)) / 365.25]

Gender If multiple genders listed, the most frequent gender was reported.

Race: For race listed as "Other", reported in "Multi-Racial" category.

Overall: See General Notes.

2B: Age Age was calculated as follows: [(July 1, 2007 - (Consumer Birth Date)) / 365.25]

Gender If multiple genders listed, the most frequent gender was reported.

Race: For Hispanic Origin Not Available, 76% of the data overall is missing from the database and 22% is listed as "Not Available".

Overall: This is the same population presented in Table 2A distributed by ethnicity.

Table Number	General Notes
2A	Data for this table were extracted from the Data Integration Grant (DIG) Database. The DIG Database is a collect of data from several different databases. The databases include in DIG are Magellan 2003, Magellan 2004, AIMS, and Avatar. The two Magellan databases hold collections of Community Based Data for Nebraska. The AIMS/Avatar database represents consumers served in one (or more) of the state's three regional centers. The DIG database contains Information about Mental Health, Dual Diagnosis, and Substance Abuse consumers.
2A	From the DIG database, Records for Mental Health and Dual Diagnosis Consumers are extracted. Mental Health Consumer records are included in this population when they meet one of three criteria: 1) Having a DSM-IV Axis 1 number which complies with a Mental Health Diagnosis or 2) Having a Service Authorization for a Mental Health Treatment Program or 3) Having a level of care for Mental Health reasons or 4) Having a Mental Health Reason for Admission.
2A	Consumers only being served for Substance Abuse or Mental Retardation/Developmental Disabilities are excluded from this population. These are not persons with Dual Diagnosis. They are people with a primary diagnosis are Substance Abuse.
2A	The population reported in this table is an unduplicated count of person in both regional center and community programs. The clients were identified by social security number and date of birth.
3	Data in this table reflects a population which receives Mental Health Services in one of four settings. This table contains data which are duplicated across rows. Community Mental Health Programs includes clients receiving outpatient services at a State Regional Mental Health Center or clients receiving services at a community provider. State Psychiatric Hospitals include Adults admitted to an inpatient unit and Adolescents admitted to either a sex offender unit or a chemical dependency unit at a State Regional Mental Health Center. Other Psychiatric Inpatients include clients admitted to one of the psychiatric inpatient hospitals within Nebraska, other than a State Regional Mental Health Center. Residential Treatment Center for Children population consists of adolescents admitted to one of the psychiatric units at a State Psychiatric Hospital, otherwise they were classified in State Psychiatric Hospitals if admitted to a sex offender or chemical dependency unit.
4	This table is a representation of the adult population reported in Table 2. Employment Status is based on most recent admission data, if more than one.
4A	This represents the same population as in Table 4. Primary diagnosis could not be determined, due to the nature of the database (ie several diagnoses at admission, with no clear identification of primary diagnosis). As an alternative, a hierarchal approach was used where the most frequent diagnosis of schizophrenia, bipolar and mood disorders, and other psychiatric diagnostic combinations was applied. Those individuals who did not fall into one of those three categories, were placed in 'all other diagnoses' if other mental health diagnostic codes were listed (Axis codes between 290-316, minus substance abuse codes). The remainder of the population was classified as "No Diagnosis and Deferred" if an appropriate code was listed (799.9 or V71.09) or no diagnosis was given at all.
5A	The Population for Table 5a is the same population represented in Table 2A. The distribution of patients was defined as follows: Medicaid Only: persons listed as eligible and receiving payments, without another source of medical insurance. Non-Medicaid Only: persons listed as having a non-Medicaid source of insurance. Both Medicaid and Non-Medicaid: Persons listed as eligible and receiving payments from Medicaid, that have another source of medical insurance. Medicaid Status Not Available: all persons not listed as having Medicaid or another source of medical insurance.
6	This table represents the turnover of the clients shown in Table 2A. Total Served at Beginning of Year (unduplicated): This population includes clients with admission dates before July 1, 2007 and who were charged after July 1, 2007, or were not discharged. To unduplicate clients, a hierarchal method was applied so that a person could only be listed in one type of service program on July 1, 2007. Hierarchy structure: (1)State Hospitals (Currently admitted); (2)Residential Treatment Centers for Children (Currently admitted, but not concurrently admitted to a State Hospital; (3) Other Psychiatric Inpatient (Currently admitted, but not concurrently admitted to a State Hospital or RTC for Children; (4) Community Programs (Currently admitted, but concurrently not admitted to any of the above programs).
6	Admissions During the Year (duplicated), the population was limited to records with admission date which occurred between July 1, 2007 and June 30, 2008. Each admission to one of the service types was only counted once, however, a person could be admitted to more than one service type. Discharges During the year (duplicated), the population was limited to records with discharge date which occurred between July 1, 2007 and June 30, 2008. Persons that were discharged and readmitted within 7 days were not considered actual discharges and were not counted (ie Transfers). Each actual discharge from one of the service types was only counted once, however, a person could be discharged from more than one service type. Length of Stay (in Days): Discharged Patients, the population was limited to those persons included in the previous column. Mean and Median number of days was calculated by subtracting the Admission date from the Discharge date of each record.
6	For Clients in Facility for Less than 1 Year: Average Length of Stay (in Days): Residents at end of year, the population was limited to persons who were admitted and were not discharged and had been in treatment for less than 365 days (calculated as follows {June 30, 2008-Admission Date}). For Clients in Facility More than 1 Year: Average Length of Stay (in Days): Residents at end of year, the population was limited to persons who were admitted and were not discharged and had been in treatment for more than 365 days (calculated as follows {June 30, 2008-Admission Date}).
8	FY2008 Federal funds approved for Nebraska was \$1,973,901 during Federal Fiscal Year 2008 (October 1, 2007 to September 30, 2008). \$1,870,206 was available for allocation to the six Regions in FY2009 Contracts (July 1, 2008 to June 30, 2009).

Table Number	General Notes
9, 11, 11a	The Division of Behavioral Health contracts with the NE DHHS Div of Public Health Data Management Unit for annual consumer survey data collection using Federal Mental Health Data Infrastructure Grant funds. The data are reported under: Table 9: SAMHSA NOMs: Social Connectedness and Improved Functioning Table 11: Summary Profile of Client Evaluation of Care Table 11a: Consumer Evaluation of Care by Consumer Characteristics: (Optional Table by Race/Ethnicity.)
10	The amount of allocation to the six Regions for State Fiscal Year 2008 was \$1,928,523. For State Fiscal Year 2009, this allocation was reduced to a total of \$1,870,205 which was a cut of \$58,318.
12	Percent of adults meeting Federal definition of SMI represents the total number of adults (18 and above) found in Table 14A (SMI population) divided by the total number of adults (18 and above) found in Table 2A (Total MH population served). See Table 14A comments for SMI definitions. Percentage of children/adolescents meeting Federal definition of SED represents the total number of children/adolescent (less than 18 years old) found in Table 14A (SED population) divided by the total number of children/adolescent (less than 18 years old) found in Table 2A (Total MH population served). See Table 14A comments for SED definitions.
12	Percentage of adults served by the SMHA who also have a diagnosis of substance abuse problem represents adults (18 years old and greater) in the population served by SMHA who also have a diagnosis of Substance Abuse divided by the total number of Adults in the population. A Person with a Substance Abuse Diagnosis is defined as someone who: (1) Has a DSM-IV Axis 1 number which complies with a Substance Abuse Diagnosis (291.1-292.99 and 303.0-305.99) or (2) Has a Service Authorization for a Substance Abuse Program or (3) Has a Substance Abuse Related "Reason for Admission." or (4) Has a level of care relating to Substance Abuse or (5) Was seen at a provider that provides care only for Substance Abuse disorders. Percentage of children/adolescents served by the SMHA who also have a diagnosis of substance abuse problem represents children/adolescents (less than 18 years of age) in the population served by SMHA who also have a diagnosis of Substance Abuse divided by the total number of children/adolescents in the population.
12	Percentage of adults meeting Federal definition of SMI who also have a diagnosis of substance abuse represents ADULTS (18 years old and greater) in the population who meet the Federal definition for SMI, who have a diagnosis Substance Abuse problem divided by the total number of ADULTS with SMI in the population (Table 14A). Percentage of children/adolescents meeting the Federal definition of SED who also have a diagnosis of substance abuse problem represents children/adolescents (less than 18 years of age) in the population who meet the Federal definition for SED, who have a diagnosed Substance Abuse problem divided by the total number of children/adolescents with SED in the population (Table 14A).
14A	This table represents the distribution of the adult SMI and children/adolescent SED population. This population is a subset of the population presented in Table 2A. NE State SMI Definition: An Axis diagnosis codes between 295-298.9 AND GAF score= 0-59 OR SSI/SSDI eligible OR Income Source = SSI or SSDI OR Have a Services authorized or Level of care or Admission reason that were classified as SMI related services. NE State SED Definition: Age 3-17 AND One of the following Axis diagnosis codes 314.00, 314.01, 314.9, 295.xx, 295.4, 295.7, 297.1, 297.3, 298.8, 298.9, 296.0x, 296.4x, 296.5x, 296.6x, 296.7, 296.80, 296.89, 296.90, 301.13, 296.2x, 296.3x, 300.01, 300.21, 300.30, 307.1, 307.51, 309.81, 312.34, 307.23 AND SSI/SSDI eligible OR Income Source = SSI or SSDI OR Have a Services authorized or Level of care or Admission reason that were classified as SED related services.
15	Living Situation information is based upon Self-Report Data collected at the time of the most recent admission (if more than one). "Children's Residential Treatment, is not recorded in the database. This field was populated by adolescents listed as living in an Institutional Setting that also met the requirements to be considered receiving treatment in a Children's Residential Treatment Center (see Table 3).
16	Receiving Supported Housing - the data are unduplicated count persons served under the Nebraska Housing Related Assistance Program, using data reported by the six Regional Behavioral Health Authorities. Receiving Supported Employment - reported directly to Nebraska Division of Behavioral Health from the Administrative Services Only Managed Care Contractor, Magellan Health Services as an ad hoc report. Receiving Assertive Community Treatment (ACT) was reported directly to Nebraska Division of Behavioral Health from the Administrative Services Only Managed Care Contractor, Magellan Health Services as an ad hoc report. Receiving Multi-Systemic Therapy (ACT) was obtained by selecting individuals listed as receiving MST in a service authorized.
17	Receiving Integrated Treatment for Co-occurring Disorders (MH/SA) represents individuals listed as receiving treatment in a dual-diagnosis program based on services authorized, admission reason, and level of care. Receiving Medication Management represents individuals listed as receiving medication management in services authorized, or level of care.
20A	This table includes all persons discharged from a state psychiatric hospital between 2/1/07-1/31/08 (allows for readmissions to be counted for 180 days), that were not admitted to or discharge from a forensic unit. The total number of discharges includes individuals treated at the state psychiatric hospitals only for substance abuse disorders, as well as individuals treated for both substance abuse and mental health disorders and those treated for mental health disorders only. Transfers between different state psychiatric hospitals are not counted as discharges. A discharge is counted if the person has been discharged for more than seven days without a readmission, and if the discharge status does not indicate a transfer. Readmissions are counted if they occurred greater than seven days after a discharge, and if the discharge status does not indicate a transfer.

SMI & SED Operational Definitions August 19, 2005

Federal Serious Mental Illness (SMI) Criteria - Pursuant to section 1912(c) of the Public Health Service Act, adults with serious mental illness SMI are persons: (1) age 18 and over and (2) who currently have, or at any time during the past year had a diagnosable mental behavioral or emotional disorder of sufficient duration to meet diagnostic criteria specified within DSM-IV or their ICD-9-CM equivalent (and subsequent revisions) with the exception of DSM-IV "V" codes, substance use disorders, and developmental disorders, which are excluded, unless they co-occur with another diagnosable serious mental illness. (3) That has resulted in functional impairment, which substantially interferes with or limits one or more major life activities. Federal Register Volume 58 No. 96 published Thursday May 20, 1993 pages 29422 through 29425.

For the purposes of the Nebraska Mental Health Block Grant reporting the number of persons served who meet this SMI criteria, the following methods were used to operationalize this definition:

Step 1: a diagnosable mental, behavioral, or emotional disorder

Diagnosis # 295 - 298.9 [Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition, Text Revision (DSM-IV-TR) © 2000 American Psychiatric Association. Schizophrenia (295), Mood Disorders including Bipolar and Major Depression (296), Delusional Disorder (297.1), Shared Psychotic Disorder (297.3), Brief Psychotic Disorder (298.8), and Psychotic Disorder NOS (298.9) ["Not Otherwise Specified"]. ... and ...

Step 2: resulted in functional impairment – The functional impairment component of the SMI designation is addressed by:

- a. SSI/SSDI eligible (include eligible receiving pay, eligible not receiving pay, potential eligible) or
- b. Served in one of the NBHS funded Community Mental Health Rehabilitation Based Services (Community Support, Assertive Community Treatment, Psychiatric Residential Rehabilitation, Day Treatment, Day Rehabilitation, Day Support, Vocational Support, or related psychiatric rehabilitation services). Admission to one of these services is a proxy measure for meeting the State definition of Persons Disabled By Severe And Persistent Mental Illness [see Title 204 -- Community Mental Health Programs; Chapter 1 – Definitions; Section 001.33].
- or
- c. Have an Axis V – Global Assessment of Functioning (GAF) Scale score of less than 60.

Federal Serious Emotional Disturbance (SED) Criteria – Pursuant to section 1912(c) of the Public Health Service Act "children with a serious emotional disturbance" are persons: (1) from birth up to age 18 and (2) who currently have, or at any time during the last year, had a diagnosable mental, behavioral, or emotional disorder of sufficient duration to meet diagnostic criteria specified within DSM-III-R. Federal Register Volume 58 No. 96 published Thursday May 20, 1993 pages 29422 through 29425.

For the purposes of the Nebraska Mental Health Block Grant reporting the number of persons served who meet this SED criteria, the following methods were used to operationalize this definition:

TARGET POPULATION: Serious Emotional Disturbance (SED) for Behavioral Health Funded Services

AGE: 3 years of age through 17 years of age

A. Diagnoses:

One of the following DSM-IV diagnoses which is the focus of the treatment being provided:

- Attention Deficit/Hyperactivity Disorders (314.00, 314.01, 314.9)
- Schizophrenia (295.xx)

- Schizophreniform Disorder (295.4)
- Schizo-Affective Disorder (295.7)
- Delusional Disorder (297.1)
- Shared Psychotic Disorder (297.3)
- Brief Psychotic Disorder (298.8)
- Psychotic Disorder NOS (298.9)
- Bipolar Disorders (296.0x, 296.4x, 296.5x, 296.6x, 296.7, 296.80, 296.89, 296.90)
- Cyclothymic Disorder (301.13)
- Major Depression (296.2x, 296.3x)
- Panic Disorder with or without Agoraphobia (300.01, 300.21)
- Obsessive-Compulsive Disorder (300.30)
- Anorexia Nervosa (307.1)
- Bulimia Nervosa (307.51)
- Post Traumatic Stress Disorder (309.81)
- Intermittent Explosive Disorder (312.34)
- Tourette's Disorder (307.23)
