General Notes: New Jersey, FY 2008

Table Number	General Notes
16	For Assertive Community Treatment the NJ DMHS has used the SAMHSA (DACTS) ACT Fidelity Scale and has incorporated most fidelity elements from the DACTS into the NJ Administrative Code (Regulations) for this program. Fidelity is monitored primarily by the Statewide PACT Coordinator. Many fidelity components (e.g. staffing, service intensity) are measured monthly. Annual site visits from the DMHS PACT Coordinator and Tri-ennial Mental Health Licensing Reviews assess the broader range of fidelity components.
16	For Supportive Housing the total number reflects approximately six months of data for FY 2008. New data collection protocols established in January 2008 to capture outcome measures. In addition units of service definition modified consistent with Medicaid.
