Are Client Counts Unduplicated? Duplicated between Hospitals & Community Number States with Unduplicated Counts 39

Note:

This table uses data from URS/DIG Table 2a, Table 2b and from the US Census Bureau.

All denominators use US Census data from 2006.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

Regional groupings of States based on SAMHSA's Block Grant Regions.

State Notes:

2A: Age None

Gender None

Race: Legacy systems still have Hispanic as a race. Some Hispanic people are listed by race others by ethnicity.

Overall: Period covered 7/1/06-6/30/07. Numbers represent anyone who received a behavioral health service. Data includes the total MA population, now under SMHA and some county funded consumers.

2B: Age None

Gender None

Race: Legacy systems still have Hispanic as a race. Some Hispanic people are listed by race others by ethnicity.

Overall: Period covered 7/1/06-6/30/07. Numbers represent anyone who received a behavioral health service. Data includes the total MA population, now under SMHA and some county funded consumers.

Note:

This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau.

All denominators use US Census data from 2007.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

Regional groupings of States based on SAMHSA's Block Grant Regions.

State Used Federal SMI Definition? No

State Used Federal SED Definition? Yes

State Notes:

14a Age None

Gender None

Race Hispanic is still reported as a race in some of the legacy systems. Accordingly, the data will be reflected in 14a and 14b. There may be differences.

Overall Period covered 7/1/06-6/30/07 Cannot determine SMI/SED status for consumers receiving service outside of county or managed care Medicaid

14b Age None

Gender None

Race Hispanic is still reported as a race in some of the legacy systems. Accordingly, the data will be reflected in 14a and 14b. There may be differences.

Overall Period covered 7/1/06-6/30/07 Cannot determine SMI/SED status for consumers receiving service outside of county or managed care Medicaid

General Notes: Pennsylvania, FY 2008

Table Number	General Notes
2a, 2b, 5a, 5b	Total number served on table 2a represents the following cohorts. Individuals who received a behavioral health service through HealthChoices, Medicaid managed care in PA, individuals receiving services through Medicaid fee for service delivery system, the partial number of consumers receiving mental health services funded by the Commonwealth and the counties in Pennsylvania. The increase in numbers from last year to this year is the result of adding the Fee for service Medicaid in Pennsylvania. The increase in numbers from last year resulted from adding the Medicaid Fee for Service funding stream to the tables. These numbers contain individuals who received D&A services delivered through Medicaid as well as MH services. At this time, the pull cannot remove them from the total served.
3 & 6	The info in these tables represents the number who received a Mental Health service only. The D&A population is removed.
4 & 15	For the Fee for service consumers, no outcomes information is collected. Tables 4 and 4a represent county/state and HealthChoices consumers only. Even within those cohorts, information is not updated unless the consumer has SMI or leaves services. No Independence of living info is captured for the Fee for service consumers. For the others the info is updated only for SMI or discharges. Other than the column on private residence, the info on the tables is for all funding streams.
14A & 14B	SMI SED status is not collected for Medicaid Fee for service consumers. Hence, the number does not represent the universe of SMI, SED served through publicly funded MH services.
16	Adults with SMI receiving Assertive community treatment and Total Unduplicated SMI clients come from two different sources. In some parts ethnicity data still comes from the legacy system where Hispanics are reported as Race instead of ethnicity, for unduplicated SMI clients Hispanics were reported as a Race where as for assertive community treatment, the data was available by ethnicity.
