This table uses data from URS/DIG Table 3.

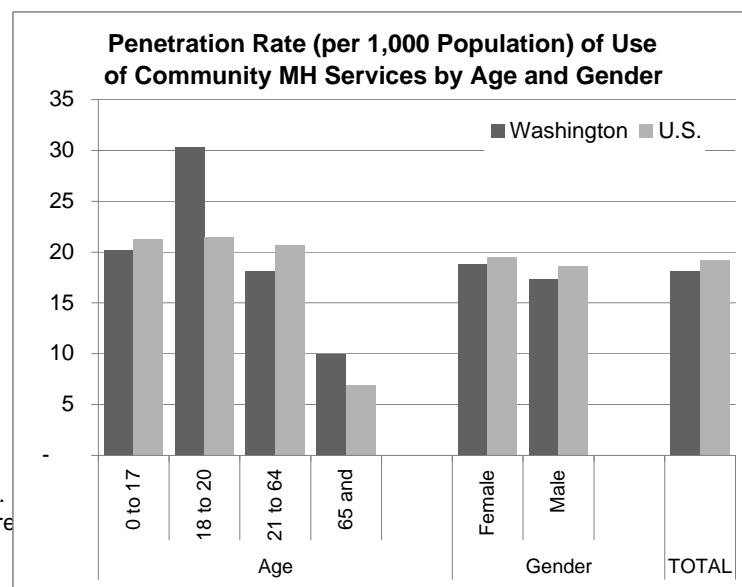

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

Gender: None

Age: Age is calculated based on the midpoint (January 1, 2008) of the time period of interest (FY2008: July 1, 2007 - June 30, 2008)

Overall: Washington does not have Residential Treatment Centers for Children. WA State has Children's Long Term Inpatient (CLIP) facilities, which are included in the state psychiatric hospital counts.

| Table Number | General Notes |

| 3 | Pierce region 2008 data for community mental health programs as well as E&Ts were not included. Data was not ready for reporting at the time this report was being prepared. |
| 16 | Counts of SMI and SED in the fiscal year did not include Pierce region 2008 data. Data was not ready for reporting at the time this report was being prepared. |
| 16 & 17 | Collected this information via a Provider Survey which limited the amount of individual-level client data that could be collected. Therefore, we don't have any of the demographic breakouts and we don't know for sure if the clients who received these services are seriously mentally ill or seriously emotionally disturbed. Also, we cannot answer any of the questions about implementation - all of our responses would be don't know at this time. However, when we are able to assess this information in the future it would be helpful to have a response option that allowed for some providers implementing using toolkit and some implementing without. |
| All Tables involving data from community mental health programs & Evaluation and | Beginning in 2008, Pierce County discontinued to operate as the Regional Support Network (RSN). Instead, the region was converted to a fee for service program. Unlike the RSNs in the State who submit the community mental health programs and the freestanding Evaluation and Treatment (E&T's) data to the State via 837p and 837i transactions, respectively, Pierce region data has been submitted via an entirely different method and format. This data was not ready for reporting at the time this report was being prepared. |
