Note:

This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2008

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Table 3 State Notes:

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data for URS/DIG Table 4a.

STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2007

STATE Alaska

	Expenditures: State	Percent of Total Expenditures: State	Expenditures: U.S.	Percent of Total Expenditures: U.S.
State Hospitals-Inpatient	\$24,556,300	45%	\$8,959,172,909	26%
Other 24-Hour Care	\$14,170,808	26%	\$6,099,852,851	18%
Ambulatory/Community	\$12,423,352	23%	\$18,046,395,606	53%
Total	\$54,674,100	-	\$33,855,834,400	-

Note:

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2007 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:
<http://www.nri-inc.org/projects/Profiles/RevenuesExpenditures.cfm>

Alaska

URS Table Number	General Notes
All Tables	Community Programs: The Division has transitioned to an electronic health records system (AKAIMS) to capture and report on community program data. FY09 is the second complete year we have been able to report on community program data through AKAIMS. Unduplicated counts of "clients served" and "SMI/SED clients served" reflect counts of clients who received services through program enrollment. These counts do not include clients who were not enrolled in a program, but did receive mental health services including screenings, assessments, or face-to-face crisis services. Thus, the numbers reported for community program services are somewhat lower than the actual number of clients served.
All Tables	State Psych Hospital: Data source is Alaska Psychiatric Institute (API).
All Tables	Other Psych Inpatient: This includes Designated Evaluation & Treatment (DET) and Acute Psych. DET: High Risk Inpatient Psychiatric Diversion from API. Data is tracked manually in a spreadsheet. FY09 data is not yet available; FY09 URS Tables include the FY08 DET data. Acute Psych: Data is from STARS/MMIS. Includes in and out-of state clients.
All Tables	RPTC: Data is from STARS/MMIS. Includes in and out-of state clients.
All Tables	Age: For all unduplicated client counts, age is assigned as of the middle of the reporting period (SFY 2009) = Age as of January 1, 2009. For all duplicated client counts, age is assigned as of the date of admission.
All Tables	Race/Ethnicity: For Community Programs, 'Hispanic' data is collected separately from 'Race' data (i.e., two separate questions); for API, Acute Psych, and RPTCs, 'Hispanic' was collected as part of the 'Race' question; and for DET, neither 'Race' nor 'Hispanic' data was collected. For consistency in reporting in the URS Tables, the API, Acute Psych, and RPTC counts of 'Hispanic' (as a 'Race'), were instead entered as being a 'Hispanic' response to the Ethnicity question and were assigned 'Race Not Available'; the balance were assigned an Ethnicity of 'Hispanic Origin Not Available.' All of the DET counts were assigned an Ethnicity of 'Hispanic Origin Not Available.'
Tables 5A/5B	Funding Support - Medicaid Status: For Community Programs, in AKAIMS, the type of primary insurance coverage is collected, but we are not able to identify whether or not a client has Medicaid only, Non-Medicaid only, or both Medicaid and Non-Medicaid. So, all clients were initially entered under Medicaid Status Not Available. We then supplemented these counts using STARS/MMIS data to identify clients that had Medicaid only or both Medicaid and Non-Medicaid eligibility. For Table 5A, we were able to supplement using STARS/MMIS data because the STARS data includes 'Race' information; however, for Table 5B, we were not able to supplement using STARS data because it does not include 'Ethnicity/Hispanic' information. For Table 5B, all the Community Program clients remained entered under Medicaid Status Not Available. Thus, the total counts for each type of funding support in Table 5A will not be the same as in Table 5B. For API, we have information on whether or not a client has Medicaid coverage, but we are not able to identify whether or not a client has Medicaid only or both Medicaid and Non-Medicaid. So, counts of 'Medicaid coverage' were entered under Medicaid Status Not Available. For RPTCs and Acute Psych, STARS/MMIS data was used to identify Medicaid eligibility. For DET, Medicaid status is not collected, so all clients were entered under Medicaid Status Not Available.
Tables 12 & 17	Co-Occurring counts and percentages are based on Community Program data only. Co-Occurring counts are based on the client's admission record program type assignment of "Treating for Both Mental Health & Substance Abuse."
16	EBP data is reported for Community Programs only; however, currently most EBP services are not tracked in AKAIMS. We generally rely on grantee quarterly reports to determine the number of clients receiving EBP services and client demographic data; demographic data is often not reported. At this time, we do not have a way of matching these clients with their records in AKAIMS to obtain demographic information. Therefore, in Table 16, clients are often included in the "Not Available" category for age, gender, and race.
17	EBP data is reported for Community Programs only; however, currently most EBP services are not tracked in AKAIMS. We generally rely on grantee quarterly reports to determine the number of clients receiving EBP services and client demographic data; demographic data is often not reported. At this time, we do not have a way of matching these clients with their records in AKAIMS to obtain demographic information. Therefore, in Table 17, clients are often included in the "Not Available" category for age, gender, and race. For counts of clients receiving treatment for co-occurring disorders, we used a report from AKAIMS that needs some additional refinement in order to obtain complete demographic data.
