URS Table Number	General Notes
All Tables	There is a larger amount of missing data this year because one Local Governing Entity switched to a new system of data collection mid-year. The new system does not collect data in the same way as the system used in the other areas of the state, and some problems with consistency in data collection and reporting are still being worked out.
All Tables	Inpatient Data Source: Patient Information Profile (PIP)
All Tables	Outpatient Clinic Data Source: Accounts Receivable and Management Information System (ARAMIS)
12	OMH operates under an administrative agreement with Louisiana's Medicaid Authority to provide managed care and administrative services, and to serve as behavioral health technical consultants as the Mental Health Authority.
12	Louisiana does not have a waiver program for mental health services. Under the MHR program, OMH provides a range of managed care functions. 1. Provides pre-enrollment certification (program standards). 2. Monitoring of annual re-certification. 3. Prior Authorization services. 4. Population eligibility determination for MHR services.
16	EBPs are practiced in some areas of the state, but not others. The use of fidelity measures differs from region to region within the state. In addition, staff training and the use of toolkits varies across the state. Format for data collection of age, gender, race, and ethnicity for individual services differs from data collection for total count so these have been collapsed into 'unavailable' category.
17	EBPs are practiced in some areas of the state, but not others. The use of fidelity measures differs from region to region within the state. In addition, staff training and the use of toolkits varies across the state. Count of demographics for specific services was collected in a different format than the total count.
