Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2008

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
MA	Yes	-	-	-	At annual assessment
US	38	23	2	7	31

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS/DIG Table 4.

State Notes:

Age Age Group is calculated upon age at the end of the reporting period.

Gender None

Overall Employment status is measured for all clients upon admission, and at annual assessment for case managed clients only.

Outcomes Domain: Employment Status of Adult Mental Health Consumers Served in the Community by Diagnosis, FY 2009

Massachusetts

Diagnosis	State				Employed as a % of Labor Force		Employed as % of Known Employment Status		% of Consumers with Dx		States Reporting

* Reported under Hispanic Ethnicity.

Forensics included in "non forensic" data? No

Note:

US totals are based on states reporting.

This table uses data from URS/DIG Table 20.

State Notes:

Since most admissions to the state hospital system occur only after one or more acute inpatient hospitalizations, the readmission rates displayed in this table do not necessarily present an accurate representation of the total inpatient readmission rate for discharges in the reporting year.

This table uses data from URS/DIG Table 20.

State Notes:

None

STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2007

STATE Massachusetts

	Expenditures: State	Percent of Total Expenditures: State	Expenditures: U.S.	Percent of Total Expenditures: U.S.
State Hospitals-Inpatient	\$127,400,000	17%	\$8,959,172,909	26%
Other 24-Hour Care	\$375,500,000	50%	\$6,099,852,851	18%
Ambulatory/Community	\$229,300,000	30%	\$18,046,395,606	53%
Total	\$753,900,000	-	\$33,855,834,400	-

Note:

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2007 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:
<http://www.nri-inc.org/projects/Profiles/RevenuesExpenditures.cfm>

Massachusetts

URS Table Number	General Notes
3 & 6	Admission to psychiatric continuing care units run by the MA DMH but located in facilities operated by the state Public Health agency are included in the State Hospital data. Individuals admitted to the three community mental health centers (CMHCs) delivering acute care and one CMHC providing continuing care are included in "Other Psychiatric Inpatient." This also includes admissions to private inpatient facilities through contract with the MA DMH.
04	The MA DMH will not be completing this optional table at this time.
05	The MA DMH is not the state Medicaid agency and does not presently have access to Medicaid data to complete this table.
11	Adult Consumer Surveys: The official 28-item MHSIP Outpatient Tool was modified to include the modules on social connectedness, improved functioning and criminal justice contact, as well as several additional questions relating to outcomes. The survey sample was drawn from persons currently in services; however, some of these individuals may no longer have been enrolled in that service when interviewed. The universe of the survey sample was adult consumers with a serious mental illness who were receiving at least one community service from the MA DMH. The MA DMH contracted with the Center for Mental Health Services Research at University of Massachusetts Medical School to administer the survey and provide analysis.
11	Child/Family Consumer Surveys: The survey sample was drawn from families of persons currently in services, however, some of these individuals may no longer have been enrolled in that services when interviewed. The universe for the survey sample was family members of all children/adolescents enrolled in Child/Adolescent Case Management services from the MA DMH. The MA DMH contracted with the Center for Mental Health Services Research at University of Massachusetts Medical School to administer the survey and provide analysis.
12	Child/adolescent services for the MA DMH are provided through age 18, with adult services delivered for ages 19 and older. Calculations for this table use the federal definition of child and adult. Ages 0-3 are served primarily by agencies other than the MA DMH, but eligibility criteria for MA DMH does not preclude service provision for this age group. Individuals counted in the total served by the MA DMH who are referred by the criminal justice system, or seen for outpatient crisis evaluations may or may not meet SMI/SED definitions. All persons who meet the eligibility determination standards for continuing care community services meet SMI/SED definitions.
12	The calculations to determine a co-occurring substance abuse disorder for total population served to not include 6,598 adults and 369 children/adolescents served in SFY09 for whom no diagnosis was on file as of the close of the reporting period. The calculations to determine a co-occurring substance disorder for adults with SMI and children/adolescents with SED do not include 6,450 adults and 347 children/adolescents served in SFY09 for whom no diagnosis was on file as of the close of the reporting period.
12	The calculation for the percentage of persons with a co-occurring diagnosis of substance abuse is obtained by counting the number of persons with a diagnosis of substance abuse on file as of the close of the reporting period divided by the total served as reported in Table 2 (total served) and Table 14 (total SMI/SED), for whom there was a diagnosis on file as of the close of the reporting period.
15	Living situation is measured at admission for all clients and at the annual review for case managed clients only. In addition, it is assessed annually for all inpatients in state operated facilities with length of stay (LOS) greater than 6 months. Count for "residential Care" does not include individuals receiving supported housing services. These individuals are counted under "Private Residence." The MA DMH does not provide crisis residence services and adult foster care. Information on individuals receiving these services through other agencies is not available in the MA DMH Mental Health Information System (MHIS). The MA DMH does not provide "traditional" foster care for children and adolescents and does not presently collect this data for those clients receiving these services through the state Department of Social Services. The MA DMH does not offer therapeutic foster care as part of a spectrum of services for children and adolescents. Data on clients receiving this service are reported in Table 16.

URS Table Number	General Notes
16	<p>The data source used to report persons receiving supported employment reports Hispanic origin as a race. It also does not contain information on age for 3 individuals. The MA DMH has reported on the number of clients enrolled in the employment track of Services for Education and Employment (SEE) program for this measure. SEE programs reported client-level data to DMH twice a year, in January, for activity occurring from July 1 through December 31, and July, for activity occurring from January 1 through June 30. As a result of the SFY09 9C budget reductions, DMH eliminated funding of the SEE program in December 2008. SEE programs did not submit data in January 2009 for the first half of SFY09 as these programs were closed in December. Therefore, DMH has chosen to report this measure in SFY09 as the number of SEE clients who were enrolled in the employment track as of June 30, 2008, with the assumption that these clients were served on July 1. These data do not reflect any clients who were newly enrolled in the employment track of SEE programs from July 1 through the close of the programs in December 2009.</p>
16	<p>Fidelity for ACT/PACT programs is measured by a team consisting of MA DMH staff, consumers and a consultant with expertise in ACT, using a scale developed internally, based upon the SAMHSA EBP toolkit. Fidelity is measured every twelve to eighteen months.</p>
17	<p>MA DMH does not presently collect information on these EBPs which are not discrete services but are elements of other services provided.</p>
20A & 20B	<p>Since most admissions to the state hospital system occur only after one or more acute inpatient hospitalizations, the readmission rates displayed in this table do not necessarily present an accurate representation of the total inpatient readmission rate for discharges in the reporting year.</p>
