Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2008

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Table 3 State Notes:

Age None
Overall Data is for Calendar Year 2008
Gender None

Table 6 State Notes:

Hospital Includes state-operated regional treatment centers and community behavioral health hospitals
Other Inpatient Includes state-contracted beds in community hospitals and all other psychiatric inpatient services in community hospitals
Residential Includes mental health residential treatment centers licensed by the SMHA
Community Minnesota does not have a single point of entry into its public mental health system for Community-based Programs. With over 600 providers, Minnesota cannot determine admissions into community programs.

Minnesota

URS Table Number	General Notes
All	Tables labeled 2008 are developed using calendar year 2008 data. Tables labeled 2009 are developed using State Fiscal Year 2009 data. (July 1, 2008 through June 30, 2009)
03	Other Psychiatric Inpatient includes regular psychiatric beds and state-contracted beds in community hospitals. Residential treatment centers include mental health treatment in centers licensed by the SMHA.
9 & 11	In 2009 the population from which the sample was drawn are those persons who receive Assertive Community Treatment, Adult Rehabilitative Mental Health Services, or Day Treatment service during State FY09.
12 & 14	In 2008, Minnesota combined the population served to include the Community Mental Health Reporting System (CMHRS) and the Medicaid Management Information System (MMIS). With the addition of the MMIS claims data, a methodology was developed to determine whether the recipient was likely to have a serious mental illness (SMI) or a severe emotional disorder (SED). The method for children with SED was further refined this year.
15	Data for living situation is reported for adults receiving Assertive Community Treatment, Rehabilitative Mental Health Services or Day Treatment. Data is for Calendar Year 2008.
16	Minnesota is unable to report the Supported Housing section because the definition for fidelity-based supported housing services has yet to be defined. Supported Employment (fidelity-based) services are reported from the six projects that are funded by a Johnson & Johnson grant. Minnesota is also unable to report Children's EBP services because Minnesota does not provide this tool-kit EBP. Minnesota is in the third year of transforming it children's mental health system through development of the Hawaii Model of evidence-based practices.
