Note:

Are Client Counts Unduplicated? Unduplicated Number of States with Unduplicated Counts 44

This table uses data from URS/DIG Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2008

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 2a

Age None
Gender None
Race NJ combines Asian/Pacific Islander in its race/ethnicity MIS category, so Pacific Islanders are reported under the Asian category.
NJ does not use multiple race categories.
Overall None

Table 2b

Age None
Gender None
Race NJ combines Asian/Pacific Islander in its race/ethnicity MIS category, so Pacific Islanders are reported under the Asian category.
NJ does not use multiple race categories.
Overall None

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data for URS/DIG Table 4a.

General Notes FY 2009

New Jersey

URS Table Number	General Notes	
11	DMHS used an expanded version of the MHSIP Consumer Survey (Version 1.2, February 2006. An additional 14 consumer satisfaction questions, germane to consumers of Residential Services, were added to the survey questionnaire.	
11a	The New Jersey Division of Children's Behavioral Health Services (DCBHS) supplies the data for this table. DCBHS does not collect/calculate demographic information in its Consumer Survey. Therefore the Child/Adolescent Family Survey Results section of this table contains no data.	
16	Supported Employment: SE programs were operational prior to the IPS (Individual Placement and Support) EBP model of supported employment. Therefore the EBP Toolkit was not available. at the time of SE implementation. DMHS has reviewed its content and uses selected relevant information. Currently the DMHS SE program largely conforms--but is not identical to the SAMHSA EBP model. At the inception of implementation, SE staff were trained to deliver supported employment services. All staff were later retrained 2-3 years ago. Currently SE staff receive ongoing training when new information or relevant topics are developed (e.g., working with consumers with a criminal justice background). Currently the SAMHSA EBP Toolkit is not used to guide the implementation of Supported Housing, nor have staff been specifically trained to support Supported Housing	
17	Fidelity for Integrated Treatment for Co-occurring Disorders (MH/SA) is measured by UMDNJ - who also provide technical support and training to all IDDT providers.	
17	Fidelity measurement training for Illness Self-Management is provided by UMDNJ to community providers and state psychiatric hospitals. Fidelity measurement is conducted annually at state psychiatric hospitals by UMDNJ. Community hospitals have the option of independently measuring their own fidelity measurements.
