Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2008

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

Forensics included in "non forensic" data? No

Note:

US totals are based on states reporting.

This table uses data from URS/DIG Table 20.

State Notes:

None

STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2007

STATE New Mexico

	Expenditures: State	Percent of Total Expenditures: State	Expenditures: U.S.	Percent of Total Expenditures: U.S.
State Hospitals-Inpatient	\$20,900,000	11%	\$8,959,172,909	26%
Other 24-Hour Care	\$88,060,534	46%	\$6,099,852,851	18%
Ambulatory/Community	\$81,731,299	43%	\$18,046,395,606	53%
Total	\$190,691,833	-	\$33,855,834,400	-

Note:

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2007 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:
<http://www.nri-inc.org/projects/Profiles/RevenuesExpenditures.cfm>

STRUCTURE DOMAIN: State Mental Health Agency Controlled Revenues by Funding Sources, FY 2007

New Mexico

Programs = 3

Total: \$2,111,058

Agency Name	Address	Agency Director	Phone Number	Block Grant
Children, Youth and Families Department	1120 Paseo de Peralta, PERA Building, Santa Fe, NM 87501	Dorian Dodson, Cabinet Secretary	505-827-7602	\$322,600
The Life Link (Planning Council)				\$415,158
ValueOptions New Mexico				\$1,373,300

New Mexico

URS Table Number	General Notes
all	These numbers do not include NM Medicaid population. Because of problems with the data tables provided by contracted single entity ValueOptions (VO) NM decided to reproduce those tables utilizing our Purchasing Collaborative's Behavioral Health Data Warehouse (BHDW). The BHDW contains data gathered from VO except for Medicaid data. Gathering the Medicaid data into the BHDW is planned for a future development phase. This is why many of the URS Table comments report that they do not include the Medicaid population.
03	This table utilizes data from two different data sources. The Behavioral Health Data Warehouse (BHDW) was utilized for reporting on Community Mental Health and RTC Programs. For State Hospital information, Other Psychiatric Inpatient, and Adult Residential service settings. The New Mexico Behavioral Health Institute supplied the information for the State Psychiatric Hospital and a few extra numbers to the Residential service settings.
06	The 40% increase in the Average LOS of adults (in facility for less than a year) who were residents at the end of the year from 2008 to 2009 is accurate as reported by NMBHI.
11	For both adults and children, the number of surveys attempted and the number of survey contacts made are not available.
12	These numbers do not include NM Medicaid population.
16	The source for the MST data is a database operated by the MST organization. It is for purposes of tracking outcomes and does not distinguish by funding source. It includes all N.M. kids receiving MST – Medicaid and non-Medicaid. The source for the SED population is the BHDW which did not have any unknown race, but which does not include Medicaid data.
16	MST fidelity measures include the Therapist Adherence Measures-Revised (TAM-R) and the Supervisors Adherence Measures (SAM). MST Inc. monitors fidelity through their network partner, The Center for Effective Interventions (CEI). Each MST provider contracts with CEI for training and fidelity monitoring. FFT Inc. monitors FFT providers for fidelity. Fidelity measures are built into weekly supervision and monitored weekly.
16	Admissions and Discharges are determined by Service Dates on Claims. A new Inpatient stay results when there is at least a 1 day gap between one Inpatient service and the next Inpatient service. A new Residential stay results when there is at least a 1 day gap between one Residential service and the next Residential service. A new Community MH stay results when there is at least a 120 day gap between one Community MH service and the next Community MH service. An Inpatient Client is counted as "Served at the Beginning of the Yr" if s/he received an Inpatient Service on 7/1/2008. A Residential Client is counted as "Served at the Beginning of the Yr" if s/he received a Residential Service on 7/1/2008. A Community MH Client is counted as "Served at the Beginning of the Yr" if s/he received a Community MH Service between 7/1/2009 and 7/31/2009. A Client's Inpatient stay is considered "Discharged" where the final date of the stay is on or before 6/29/2009. A Client's Residential stay is considered "Discharged" where the final date of the stay is on or before 6/29/2009. Where a given client has treatment stays from which s/he was Discharged (Inpatient or Residential only), and is also in Treatment at the End of the year, that client is counted both under "Length of Stay (in Days) discharged Patients" for discharged stays as well as under "Average Length of Stay (in Days) Residents at end of year" for the stay still active at the end of the year. For the Average Length of Stay (in Days) for Discharged Patients, if, for example, a Client had 3 Admissions and Discharges (e.g. 7 days, 5 days, 3 days), that Client's Length of Stay would be counted 3 times, resulting in a 5 day average stay, rather than adding the stays for the client which would have resulted in a 15 day stay).
