US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

\*\*With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS/DIG Table 4.

#### State Notes:

Age None

Gender None

Overall Increase in consumer employment between 2008 and 2009 is most probably a result of more adults completing the Ohio Client Outcomes scales, not necessarily a greater number of consumers employed

#### **Note:**

\*In Labor Force is the sum of consumers employed and unemployed.

\*\*With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data for URS/DIG Table 4a.

## Ohio

URS Table Number	General Notes
All	To understand Ohio's data it is helpful to know: Ohio does not have a DIG Grant and does not use MHSIP and YSS-F, and Ohio's data is from multiple data bases that include: (1) MACSIS (community mental health claims data base combined with PCS data in unduplicated count for Tables 2 and 14). (2) PCS (state hospital data base - Table 20 and combined with MACSIS for Tables 2 and 14). (3) Ohio Consumer Outcomes (Tables 4, 9, 19 and 15 adult only, and portions of 11). (4) Behavioral Health Module (Table 15 kids only); and (5) EBPs - (Tables 16 and 17) Reports by individual CCOEs (ACT, SAMI/IDDT, Supported Employment, CIP/MST)
9	A Social Connectedness Scale was created from 4 items collected from our Ohio Outcomes System Quality of Life section (for adults only): 1. How do you feel about the amount of friendship in your life? 2. How do you feel about the amount of meaningful activity in your life (such as work, school, volunteer activity, leisure activities)? 3. How do you feel about the way you and your family act toward each other? 4. How often do you have the opportunity to spend time with people you really like? Items 1-3 were answered on this 5-point scale: 1=Terrible, 2=Mostly dissatisfied, 3=Equally satisfied/dissatisfied, 4=Mostly satisfied, 5=Very pleased, 8=Does not apply (for question #3). Item 4 was answered on this 5-point scale: 1=Never, 2= Seldom/rarely, 3=Sometimes, 4=A Social Connectedness Scale was created from 4 items collected from our Ohio Outcomes System Quality of Life section (for adults only): 1. Item 4 was answered on this 5-point scale: 1=Never, 2= Seldom/rarely, 3=Sometimes, Often, 5=Always. Similar to the MHSIP Social Connectedness scale, Ohio's Social Connectedness scale was computed if the individual had at least 3 of the 4 items (Preliminary stats on a subsample of the population indicated that 84.2% of cases have all 4 items, another 5.7% have at least 3 items (89.8%); 0.9% have only 1 or 2 items, and 9.2% do not have any of the 4 items). The Reliabilities (Cronbach's alpha) for Ohio's Social Connectedness scale on the subsample were adequate: total sample alpha = .74; alpha's ranged from .73 to .75 by sex to .71 to .75 by race. To Create cut-off scores for reporting in the Block Grant we followed a similar formula as the MHSIP Social Connectedness scale. However, the MHSIP Social Connectedness items are on a 5 point scale with 1 being high - Ohio's Social Connectedness scale is on a 5 point scale with 5 being high. Thus instead of using the MHSIP cutoff score of 2.5 Ohio's cutoff score is 3.5, however they represent the same relative value.
14A	SED (children) Definitions: Ohio Administrative Code: 5122-24-01; Certification definitions; (B) Applicability. (82) "Person with serious emotional disturbance" means a person less than eighteen years of age who meets the department's 508K certification criteria, which is a combination of duration of impairment, intensity of impairment and diagnosis. The following criteria are used in the certification process: (a) Criteria: (i) Under eighteen years of age; (ii) Marked to severe emotional/behavioral impairment; (iii) Impairment that seriously disrupts family or interpersonal relationships; and (iv) May require the services of other youth-serving systems (e.g., education, human services, juvenile court, health, mental health/mental retardation, youth services, and others). (b) Marked -to-severe behavioral impairment is defined as impairment that is at or greater than the level implied by any of the following criteria in most social areas of functioning: (i) Inability or unwillingness to cooperate or participate in self-care activities; (ii) Suicidal preoccupation or rumination with or without lethal intent; (iii) School refusal and other anxieties or more severe withdrawal and isolation; (iv) Obsessive rituals, frequent anxiety attacks, or major conversion symptoms; (v) Frequent episodes of aggressive or other antisocial behavior, either mild with some preservation in social relationships or more severe requiring considerable constant supervision; and (vi) Impairment so severe as to preclude observation of social functioning or assessment of symptoms related to anxiety (e.g., severe depression or psychosis). (c) An impairment that seriously disrupts family or interpersonal relationships is defined as one: defined as one: (i) Requiring assistance or intervention by police, courts, educational system, mental health system, social service, human services, and/or children's services; (ii) Preventing participation in age-appropriate activities; (iii) In which community (home, school, peers) is unable to tolerate behavior; or (iv) In which behavior is life-threatening (e.g., suicidal, homicidal, or otherwise potentially able to cause serious injury to self or others).
