Pennsylvania

URS Table Number	General Notes
2A, 2B, 5A, 5B	Total number served on table 2a represents individuals who received a behavioral health service through HealthChoices (Medicaid managed care in PA), individuals receiving services through Medicaid fee for service delivery system, the partial number of consumers receiving mental health services funded by the Commonwealth and the counties in Pennsylvania. These numbers contain individuals who received drug & alcohol (D&A) services delivered through Medicaid as well as MH services. At this time, the pull cannot remove them from the total served.
3, 6	The info in these tables represents the number who received a Mental Health service only. The Drug and Alcohol population are removed.
4, 15	For the Fee for service consumers, no outcomes information is collected. Tables 4 and 4a represent county/state and HealthChoices consumers only. Even within those populations, information is not updated unless the consumer has SMI or leaves services. No Independence of living info is captured for the Fee for service consumers. For the others the info is updated only for SMI or discharges. Other than the data on private residence, the info on the tables is for all funding streams.
14A, 14B	SMI SED status is not collected for Medicaid Fee for service consumers. As a result, the number does not represent the entire universe of SMI and SED served through publicly funded MH services.
