Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2008

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Table 3 State Notes:

Age None
Overall The Division of Mental Health does not fund other psychiatric inpatient stays nor stays in residential treatment centers for children, therefore data is not available for these two settings.
Gender None

Table 6 State Notes:

Hospital None
Other Inpatient The Division of Mental Health does not fund other inpatient services, therefore data is not available.
Residential The Division of Mental Health does not fund residential treatment centers, therefore data is not available.
Community None
Overall None

Forensics included in "non forensic" data? No

Note:

US totals are based on states reporting.

This table uses data from URS/DIG Table 20.

State Notes:

The national economic downturn has caused an increased need for mental health services across the state, both inpatient and in the community. In addition, during the last 3 months of the fiscal year, the Indigent Medication Program was closed to new referrals, as the funding was completely utilized through those that were already approved. These two issues could be contributive factors in the increased re-admissions for individuals. The Division of Mental Health, the Human Services Center, and community mental health providers will continue to work together to improve discharge planning and service delivery across the state of South Dakota.

URS Table Number	General Notes
14A & 14B	<p>State definition of SPMI: The consumer's severe and persistent emotional, behavioral, or psychological disorder causes the consumer to meet at least one of the following criteria: (a) The consumer has undergone psychiatric treatment more intensive than outpatient care and more than once in a lifetime, such as, emergency services, alternative residential living, or inpatient psychiatric hospitalization; (b) The consumer has experienced a single episode of psychiatric hospitalization with an Axis I or Axis II diagnosis per the DSM-IV-TR as defined in § 46:20:01:01;(c) The consumer has been treated with psychotropic medication for at least one year; or (d) The consumer has had frequent crisis contact with a center, or another provider, for more than six months as a result of a severe and persistent mental illness; and (2) The consumer's severe and persistent emotional, behavioral, or psychological disorder meets at least three of the following criteria: (a) The consumer is unemployed or has markedly limited job skills or poor work history; (b) The consumer exhibits inappropriate social behavior which results in concern by the community or requests for mental health or legal intervention; (c) The consumer is unable to obtain public services without assistance; (d) The consumer requires public financial assistance for out-of-hospital maintenance; (e) The consumer lacks social support systems in a natural environment, such as close friends and family, or the consumer lives alone or is isolated; or (f) The consumer is unable to perform basic daily living skills without assistance.</p>
14A & 14B	<p>State Definition of SED: Severe emotional disturbance defined. An individual with a serious emotional disturbance is an individual who: (1) Is under eighteen years of age; or is between 18-21 years of age having received services prior to the age of 18. (2) Exhibits behavior resulting in functional impairment which substantially interferes with, or limits the individual's role or functioning in the community, school, family, or peer group; (3) Has a mental disorder diagnosed under the Diagnostic and Statistical Manual of Mental Disorders, fourth edition revised, 1994; (4) Has demonstrated a need for one or more special care services, in addition to mental health; and (5)Has problems with a demonstrated or expected longevity of at least one year or has an impairment of short duration and high severity. For purposes of this section, mental retardation, epilepsy, other developmental disability, alcohol or substance abuse, brief period of intoxication, or criminal or delinquent behavior do not, alone, constitute serious emotional disturbance.</p>
15	<p>The number of individuals in foster care, residential care, and institutional settings dropped 146 individuals from last fiscal year. Possible reasons for this include improved focus on development of systems of care for individuals and families receiving community mental health services.</p>
20	<p>The national economic downturn has caused an increased need for mental health services across the state, both inpatient and in the community. In addition, during the last 3 months of the fiscal year, the Indigent Medication Program was closed to new referrals, as the funding was completely utilized through those that were already approved. These two issues could be contributive factors in the increased re-admissions for individuals. The Division of Mental Health, the Human Services Center, and community mental health providers will continue to work together to improve discharge planning and service delivery across the state of South Dakota.</p>
