* Reported under Hispanic Ethnicity.

Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2008

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Wyoming

URS Table Number	General Notes
All	Decreases from FY 2008 to FY 2009 is attributed a change in management of the data and not a drop in services. Wyoming has started to implement a quality management plan to ensure data is more timely, accurate, and complete.
14A	<p>Serious & Persistent Mental Illness- A client meets the definition of an adult with a serious and persistent mental illness if he/she meets the criteria for a Dimension I diagnosis of: a) Schizophrenia or Other Psychotic Disorder (DSM diagnosis of 295.xx, 297.xx, 298.xx); b) Major Depressive Disorder or Bipolar Disorder (DSM diagnosis of 296.xx, severe, recurrent, not in full remission); or c) Anxiety disorder, personality disorder or a combination of mental disorders sufficiently disabling to meet criteria of functional disability. In addition to the criteria listed above, the client must meet one of the following criteria for Dimension II that is either present or that would present in the absence of treatment or other supports and is due to one of the clinical diagnostic grouping in Dimension I: a) The client must demonstrate an inability to support his/herself financially, perform activities of daily living, and/or behave in ways that do not bring the attention of law enforcement due. b) The disability of the client must also be continuous, episodic or expected to persist for at least a year; or c) The client is an adult who receives SSI or SSDI based on disability from a diagnosed mental disorder or adult who receives SSI or SSDI based on combined disorders but only when the psychiatric disorder(s) and its functional disabilities alone are clearly comparable to Dimensions I and II above. A client does not meet the definition of an adult if the person has a primary diagnosis of mental retardation or other development disability, substance abuse or dependence, or organic mental disorder; or the person's functional disabilities are primarily due to mental retardation or other development disability, substance abuse or dependence or organic mental disorder.</p>
14A	<p>Serious Emotional Disorder (SED) is the inclusive term for children and adolescents whose emotional and mental disturbance severely limits their development and welfare over a significant period of time and that required a comprehensive and coordinated system of care in order to meet their needs. A determination of SED requires that a child/adolescent meet all of the following conditions: a) The child/adolescent is less than 18 years of age. b) The child/adolescent must have a DSM (current manual) diagnosis, other than V codes, adjustment disorders, mental retardation or learning disabilities unless they co-occur with psychiatric diagnosis. c) In the absence of treatment or other supports, the child/adolescent's degree of emotional and mental disturbance consistently prevents them from functioning in at least two of the following life domains: age appropriate self-care, family life, education, community living, personal hygiene, leisure time management, and peer relationships. For young children under age 6, pronounced emotional or behavioral symptoms including, but not limited to, severe withdrawal, symptoms of attachment disorder, autism, aggressive behavior in more than one setting. a) In the absence of treatment or other supports, the disorder has been present for at least one year or is anticipated to persist for a year or longer on the basis of a diagnosis within the past year. b) In the absence of treatment or other supports, the severity of the child's/adolescent's disorder places them at significant risk for out of school, home, or community placement.</p>
