* Reported under Hispanic ethnicity.

Note:

US totals are based on states reporting.

This table uses data from URS Table 15.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

Table populated by NRI using Alabama's data reported through 2016 MH-CLD. See General Notes.

CONSUMER SURVEY RESULTS, FY 2016

STATE: Alabama

Indicators	Children: State	Children: U.S. Average	States Reporting	Adults: State	Adults: U.S. Average	States Reporting
Reporting Positively About Access	85.6%	85.2%	47	75.3%	85.6%	50

Mental Health Center of Madison County	4040 S. Memorial Pkwy, Huntsville, AL 35802	Madison Co.	\$148,639	\$0

Alabama

URS Table Number	General Notes
3	The Alabama Department of Mental Health (DMH) closed a state hospital in north Alabama in 2015 resulting in a decrease in the total number of consumers served in state psychiatric hospitals.
4, 15	DMH numbers are probably more linked to the implementation by our contracted providers of Electronic Health Records (EHRs). In 2015, there were issues with data reporting; a more accurate reflection is shown with 2016 data.
6	The Alabama Department of Mental Health (DMH) closed a state hospital in north Alabama in 2015 resulting in a decrease in the total admissions to state hospital during the year and the total number of consumers served in other psychiatric inpatient settings at the beginning of the year. Average LOS of children discharged from state hospitals: this is a 10-bed unit. Due to the low numbers served (small sample size), having one or more patients that have a severity level that dictates long LOS will skew the data. The decrease in Average LOS of children (in facility < 1 year) who were state hospital residents at the end of the year is due to DMH changed providers in FY16. The provider was not entering data into the DMH CARES system which is our state hospital clinical system.
8	The decrease in Total MHBG Expenditures for Non-Direct Service Activities is due to the fact that we spent one time funds to develop a software program (Gateway) for tracking commitments.
14A	SMI Definition: Person who meets the diagnosis and disability criteria or who meet the criteria for high risk. Disability Criteria (must meet at least 2 criteria plus diagnosis criteria). (1) Is unemployed, is employed in a sheltered setting or has markedly limited skills and a poor work history. (2) Shows severe inability to establish or maintain personal social support systems. (3) Shows deficits in basic living skills. (4) Exhibits inappropriate social behavior. High Risk (must meet one of the criteria). (1) History of DMH/MR supported inpatient or public residential treatment as a result of an Axis I Mental Illness diagnosis. (2) Person would become at imminent risk of needing inpatient hospitalization without outpatient intervention.
14A	SED Definition: Person must meet the diagnosis criteria and Separation from Family or meet diagnosis criteria and Functional Impairments/Symptoms/Risk of Separation Criteria.
20A/B	DMH has been in a process of closing state hospitals since 2012. We still serve committed patients but have shrunk the amount of state beds in the state for Civil/Non-Forensic commitments. We still maintain the number of state hospital beds for Forensic commitments and are actually adding approximately 25 beds this calendar year. Since 2011, DMH has been in a process of transformation which has included a more direct interact with transitions of individuals into community care and resources and coordinating care between our community mental health system and the state hospitals. This has led to a UR process that works more closely to analyze needs in the community to better assist in reducing readmissions. The data seems to support that our efforts may be providing more effective outcomes.
