Note:

This table uses data from URS tables 5a and 5b.

Type of Medicaid Data Reported

Data based on Medicaid Paid Services

State Notes

5a Age	None
5a Gender	None
5a Overall	DC made a push to get consumers without Medicaid enrolled, rather than unnecessarily spending local dollars. This successful effort led to fewer consumers having their services paid for out of non-Medicaid dollars.
5b Overall	None

APPROPRIATENESS DOMAIN: NUMBER OF ADMISSIONS DURING THE YEAR TO STATE HOSPITAL INPATIENT AND COMMUNITY-BASED PROGRAMS, FY 2016

Note:

US totals are based on states reporting.

This table uses data from URS Table 15.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

DC's new data system has Living Situation as a mandatory profile field. All new consumers and many of those imported from the previous system have this field filled in. Ongoing data cleanup will continue to increase these numbers.

District of Columbia

URS Table Number	General Notes
3	Not all non-state hospital admissions and discharges were entered into iCAMS during FY2016 resulting in low count for other psychiatric inpatient. Hospitals did not share information comprehensively or timely.
12	In FY16 some of the Substance Use service providers switched from one system to another and then back to the first. In addition, the system converted diagnoses to ICD-10. Because not all providers used the new mental health EHR, diagnosis data was missing for many of their consumers. These changes may account for poor data quality and a lower number of consumers being identified as having a co-occurring diagnosis.
