**Note:**

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

This table uses data from URS Table3 and 6.

US totals are based on states reporting.

This table uses data from URS Tables 16 and 17.

US averages are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

## Georgia

| URS Table Number     | General Notes  |
|----------------------|--|
| All                  | Unless otherwise specified, data in all tables includes consumers served in the following settings: State hospital inpatient stays in Adult Mental Health and Secure (Forensics) programs. Data for hospital outpatients and non-admits (including 23-hour observation) is not included; however, hospital-operated community services are included with other community services. Authorizations for residential stays in Psychiatric Residential Treatment Facilities (PRTFs). Authorizations for community services for consumers having at least one authorization with Primary or Secondary Diagnostic Category of MH.  |
| All                  | Age: Unless otherwise specified Individuals age was calculated as of the beginning of the report period (BOP = 7/1/2015). Race: DBHDD implemented a new IT vendor mid-year. As part of the data migration it was identified that a number or member's race was crossed between Asian and Black/African American that could not be undone. Thus there are significant differences between 2015 and 2016. "More Than One Race Reported" includes Multi-Racial. "Race Not Available" includes Other Single Race, Unknown, and not reported. Hispanic/Latino Origin: "Not available" includes "Unknown" and not reported.  |
| All                  | During this report period DBHDD switched IT system vendors, thus data was pulled from two disparate systems and merged together. This process may have caused some anomalies in the data or unreportable data for this fiscal year.  |
| 4                    | Table 4 reports data for community consumers only. Employment status reported in Table 4 is the latest available for the state fiscal year. Employment status is collected at admission, at discharge, at re-authorization of services, and at addition of new services to an existing authorization. Employed includes Competitive Employment and Community Based Non-Competitive Employment. Unemployed includes Unemployed but Available for Work = Yes. "Not in Labor Force" includes Facility Based Non-Competitive Employment and Unemployed but Available for Work = No. "Not available" includes Not Available and Not Reported.   |
| 5A/B                 | "Medicaid (only Medicaid)" includes any consumer in Table 2A for whom a Medicaid MRO/PRTF claim was paid, but no State service encounter was reported. "Non-Medicaid Sources (only)" includes any consumer in Table 2A for whom no Medicaid claim was paid, but a State service encounter was reported. "People Served by Both Medicaid and Non-Medicaid" includes any consumer in Table 2A for whom both a Medicaid claim was paid and a State service encounter was reported. "Medicaid Status Not Available" includes all the remaining consumers in Table 2A.  |
| 6                    | Community Programs: Consumers served at beginning of year includes any "Registration", "New Episode", or "Ongoing" request that was active on first day of fiscal year. Community consumers admitted during the report period were identified by "Registration" and "New Episode" requests which had a start date during the fiscal year.  |
| 6                    | Other Psychiatric Inpatient and PRTF: The state began contracting with Private Psychiatric Inpatient Facilities and the data is maintained in a different database. It is not possible to incorporate these individuals into reporting this fiscal year.   |
| 9, 11, 19A/B         | C&A Surveys utilized the YSS-F. 2000 mail surveys were sent at random with only 176 being returned. Also, survey data includes community consumers only.   |
| 12, 14A, 14B, 16, 17 | Community consumers may receive authorization for a core bundle of services using a simplified authorization request type called "Registration." On these authorization requests, consumers were assigned a diagnostic category of "Mental Health," but they were not assigned specific DSM diagnoses; therefore, consumers whose only request type active during the SFY was Registration cannot be designated as SMI or SED. This yields reported counts and percentages of SMI/SED consumers that are artificially low because no "Registration-only" consumers are included. Such consumers could not be included in: Table 12 (SMI/SED percentages of total served); Table 12 (SMI/SED percentages with co-occurring substance abuse); Tables 14A/14B (total SMI-SED consumers served); Table 15A (total SMI/SED consumers served by treatment setting); Table 16 (SMI/SED consumers receiving specified services); Table 17 (SMI consumers receiving specified services) |
| 15                   | This table reports data for community consumers only. Living Situation reported in Table 15 is the latest available for the state fiscal year. It is collected at admission, at discharge, at re-authorization of services, and at addition of new services to an existing authorization. Residential Care includes living situations Residential Care and PRTF where the consumer's age was >= 18. Children's Residential Treatment includes living situations Residential Care and PRTF where the consumer's age was <18. Crisis Residence is not included among the response options for living situation in Georgia's information system. "Not available" includes living situation Not Reported.  |
| 16                   | "Total unduplicated number of adults with SMI served" and "Total unduplicated number of children with SED" includes only community consumers. See note for tables 12, 14A, 14B, 16, and 17   |

| URS Table Number | General Notes   |
|------------------|---|
| 20A/B            | This table presents duplicated counts of consumers discharged from a State hospital Adult Mental Health inpatient programs between 1/1/2015 - 12/31/2015, and those consumers' subsequent readmissions within 30/180 days of discharge. Calendar year was used for this table instead of State Fiscal Year because 180 days from the end of the State Fiscal Year would not have passed by the due date of this report. Age: Data is based on the consumer's age at discharge. Race: "Race Not Available" includes "Other Single Race." |
