URS Table Number	General Notes
12	The change in the percent of clients served by SMHA with co-occurring mental health and substance abuse is a result of Idaho identifying a method for calculating co-occurring clients through the use of the MH diagnosis and SA diagnosis listed on the MH-CLD. This is a change from previous years.
21	Idaho has updated its reporting method to accurately report readmissions to a local hospital to include days from a discharge from a state hospital.
