Structure Domain: Mental Health Programs Funded By the Federal Mental Health Block Grant, FY 2016**Montana**

Total Programs = 4

Adult Total: \$530,000

Total: \$530,000

Agency Name	Address	Area Served	Block Grant for Adults with SMI	Block Grant for Children with SED
Western MH Services	699 Farmhouse Lane, Bozeman, MT 59705	Gallatin City Employment Services/Drop-In Center	\$160,000	\$0
Yellowstone Boys/Girls Ranch	1732 E 72nd St W, Billings, MT 59106	Yellowstone County	\$175,000	\$0
Mountain Home Montana	2606 S Ave W, Missoula , MT 59804	Missoula County	\$160,000	\$0
Dartmouth Psychiatric Research Center	85 Mechanic St., Lebanon, NH 3766	Statewide	\$35,000	\$0

Montana

URS Table Number	General Notes
2a/b, 5a/b &14a/b	These data includes all clients receiving mental health services in FY16 served in inpatient, outpatient, MT State Hospital, Montana Mental Health Nursing Care Center (MMHNCC) and Jail paid for by Medicaid, State funds, CHIP (HMK) or processed by a TPA (BCBS-MT). FY15 data did not include CHIP (HMK), most MMHNCC clients, and many jail clients, which accounts for why FY16 numbers are much larger than FY15.
3	Increase in State Psychiatric Inpatient data compared to FY15 is primarily due to an increase in the forensic population.
4	The decrease in total number of consumers unemployed is due to the number of FY15 clients unemployed in their last evaluation should have been 1,235.
5A	The increase in the number of clients with Non-Medicaid Funding and those with both Medicaid and non-Medicaid funding is due to counting CHIP (Healthy Montana Kids-HMK) clients for the first time in FY16 and including all Montana Mental Health Nursing Care Center (MMHNCC) clients because these patients were served directly by the SMHA and their services were most often funded with Non-Medicaid funding. The FY15 data did not include CHIP (HMK) clients or most MMHNCC clients because they are not readily available electronically and had to be obtained in FY16 via a request for a manual spreadsheet.
6	The reason for the increase in number of state hospital patients served at the beginning of FY16 compared to FY15 is due (1) because we had more forensic clients in FY16 and (2) the FY15 number provided for the URS Tables is low and should have been approximately 191 instead of 131. The increase in Total Admissions to Other Psychiatric Inpatient During the Year is due to the FY16 numbers included CHIP (HMK) claims for the first time. They were not included in the URS Tables in FY15.
8	Administrative costs are allocated proportionately across the programs within the Addictive and Mental Disorders Division. These allocations may fluctuate based upon the division's needs and resources at the given time. The drop in administrative costs allocated to the Mental Health Block Grant is due to the shifting of administrative resources to areas of the division that had a greater need during the given timeframe.
12	In FY16, co-occurring was based on a combination of collected quarterly data indicating substance use and substance use treatment data from paid claims. FY15 data was too low and should be 14% (3414/23936) based on quarterly data indicating abuse, abstinence and in treatment and those from the FY15 URS table who had paid claims from PT32 (Chemical Dependency Clinic).
15	Numbers of consumers living in private residence increased in FY16 due to an increase in residential data collection. The FY15 jail data was too low. It should have been 2,045. There was actually a decrease in the number of consumers in jail/correctional facility in FY16. The increase in homeless/shelter in FY16 is due to an increase in residential data collection. The FY15 number of consumer's homeless/shelter should have been 343.
20a/b,21	The increases in Total percent readmitted within 30 days and 180 days are because FY15 data was too low.
