New Mexico

URS Table Number	General Notes
4	Optum Health (non-Medicaid) reported fewer clients employed this year.
5A	Optum Health (non-Medicaid) reported fewer clients this year.
6	The number of clients we received from our sources changed this year. We received client information from 7 different sources. We are reporting the data we received from the New Mexico Behavioral Health Hospital.
8	More dollars were directed to direct services rather than administrative costs, administrative costs are in accordance with the Omni Circular and federal regulations updated based on cost allocation plans submitted to the Public Assistance Cost Allocation Plan (PACAP). The PACAP is approved by U.S. Department of Health and Human Services, and the Division of Cost Allocation Services.
12, 14A/B	We did not receive SMI/SED information from our Medicaid source (MCOs) last year. This year we derived the value based on diagnosis codes. This increased the SMI/SED numbers since the MCOs were our primary source of data.
15	With increased Medicaid services and decreased non-Medicaid services, more data comes from Medicaid sources (MCO's) and less non-Medicaid. Medicaid sources rarely provide complete housing information that non-Medicaid sources have structured to deliver, housing data is less complete and therefore FY16 counts are lower.
16	Medicaid data was not reported this year. Only Non-Medicaid data and Supportive Housing data was provided.
20A/B	Different method was used to find the number of days elapsed between discharge and readmission this year than what our previous Data Program Manager. We are unable to duplicate what he did for last year's reporting.
