Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

This table uses data from URS Table3 and 6.

Table 3 State Notes:

Age	None
Overall	Community MH includes all settings except inpatient. State Hospital (SFY 4/2015-3/2016). Other Psy Inpatient includes all persons in general hospital psychiatric units and Medicaid recipients served in private psy. hospitals (CY 2015). RTC (SFY 2016).
Gender	None

Table 6 State Notes:

Hospital	SFY 2016 MHARS dataset; includes forensic facilities.
Other Inpatient	CY 2015 hospital discharge abstracts (SPARCS) and private mental hospitals (Medicaid). No children were in other inpatient settings for more than one year.
Residential	SFY 2015 Residential Tx Center for Children (CAIRS).
Community	Source: Patient Characteristics Survey (2015). Data excludes persons who were only in inpatient settings during year. Estimates based on admission date: "Beginning of year" over 1 yr before survey; "admissions" less than 1 year before survey.
Overall	Individuals are duplicated across the state hospital, other psychiatric inpatient, RTC, and community settings. See General Notes for more information.

State Notes:

None

STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2015

STATE New York

	Expenditures: State	Percent of Total Expenditures: State	Expenditures: U.S.	Percent of Total Expenditures: U.S.
State Hospitals-Inpatient	-	-	\$8,340,684,868	22%
Other 24-Hour Care	-	-	\$6,326,751,257	17%
Ambulatory/Community	-	-	\$22,187,984,421	59%
Total	-	-	\$37,767,897,721	-

Note:

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2015 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:

New York

URS Table Number	General Notes
4, 5A, 16	Note that between the 2013 and 2015 PCS surveys, the insured population in New York State (NYS) expanded sharply due to the 2014 implementation of the Affordable Care Act. The number of individuals enrolled in NYS Medicaid Managed Care alone increased 24% from January 2014 through March 2016, with nearly 40% of all Medicaid Managed Care clients enrolled through New York's health exchange in March 2016. This increase in the insured population impacted the PCS results in two noticeable ways: 1) There was a substantial increase in those reported as specifically insured through Medicaid, most likely due to the expansion of Medicaid eligibility; and 2) There was an increase in the number of new clients in the public mental health system. This increase was probably due to the potential for increased access to services through newly-acquired insurance. This influx of new clients is reflected in changes to the composition of the mental health population generally and to the PCS annualized estimates specifically.
17	The Family Psychoeducation estimate includes consumers receiving Consumer Centered Family Consultation, a brief 1-5 session intervention that emphasizes information, support and guidance to family members that is practical for adults with SMI. Each year, the Family Psychoeducation training provided by the Family Institute for Education, Practice and Research reaches more families as the number of trained clinicians has expanded. However, we can only report data on the families served by clinicians who are participating in the most recent training initiative and an average on prior initiatives.
19A	There was an increase in the mental health population from 2014 to 2015 due to the expansion of Medicaid eligibility under the Affordable Care Act.
20A/B	New York State has been implementing a multi-year state-wide initiative focused on increasing access to community-based mental health services and care coordination. We believe that the noted reduction in readmissions is likely due to these efforts; the agency continues to investigate these healthcare system changes to understand their impact on utilization and outcomes.
21	Psychiatric inpatient readmission data may be incomplete. For example, a readmission would not be included if it occurred after a person lost Medicaid eligibility, or if a person was hospitalized out of state or in the Veteran's Administration system.
