## Ohio

URS Table Number	General Notes
All	Ohio is in the process of replacing and improving its data systems. We expect reported data to be better next year.
4	Table 4 employment status does not equal Table 3 adults receiving CMH services because we reran the file to fix matching issues between OHBH (MH-CLD) and Medicaid claims which increased the number of persons employed. We did not rerun Table 3 because it did not require OHBH.
8	Ohio's expenditures for Non-Direct Service Activities were 29% less than last year due to actual changes in spending.
8 & 10	Ohio's Mental Health Block Grant award was \$15,076,166 in FFY 2015 and \$16,292,879 in FFY 2016. The expenditures will not match the allocation, because Ohio expended the FFY 2015 Award in SFY 2016 and the first quarter of SFY 2017 (ending September 30, 2016). Ohio's total MH Block Grant expenditures in SFY 2016 were \$13,832,656, and are expected to be greater in SFY 2017. Ohio expended \$13,832,656 in SFY2016 which is split between Tables 8 and 10.
10	Ohio budgeted the FFY 2015 Award for SFY 2016 First Episode Psychosis projects, which is consistent with Ohio's historical practice of expending the FFY Award during the last 5 (of 8) quarters in which it is allowed by the terms of the federal award.
10	Ohio does not track MH Block Grant expenditures by adults (SMI) and children (SED), so an algorithm using the percentage of adults and children reported to allocate most of the awards. In some cases where the award was clearly for one age group, it was allocated to that age group. As the allocation method was changed this year, the numbers may vary some from last year.
12	Ohio's SMI & SED methodology is detailed in a memo of 2002 and updated with an ICD-9/ICD-10 crosswalk prepared by Carol Carstens, OhioMHAS Office of Quality, Planning & Research in 2015.
