**Are Client Counts Unduplicated?** Unduplicated **Number of States with Unduplicated Counts** 43

This table uses data from URS Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2015

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

**State Notes:**

**Table 2a**

Age Age is calculated at midpoint of the State's elected reporting period (i.e., December 31, 2015).  
Gender Pregnant women - pregnancy status search was limited within the reporting period for clients 15 years and older, which is the earliest age used by CDC to report teen pregnancy.  
Race Demographic values (age, gender, race, ethnicity) - value was based on the client's most recent record except when the value is Unknown and search for a valid value was made within the 12 months prior to the end of the reporting period.  
Overall Total number of persons served increased over last year due to an increase in people served and the inclusion of more people submitted to MH-TEDS.

## Note:

US totals are based on states reporting.

This table uses data from URS Table 15.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

## State Notes:

Foster Home as a category for living situation is no longer reported under the new reporting methodology adopted by OK. The 'Other' category is reported under 'Residential Care'. Residential treatment includes both children and adults. See General Notes.
