**Note:**

**Are Client Counts Unduplicated?** Unduplicated **Number of States with Unduplicated Counts** 43

This table uses data from URS Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2015

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

**State Notes:**

**Table 2a**

Age Age is calculated at midpoint of the State's elected reporting period (i.e., December 31, 2014).  
Gender None  
Race Demographic values were derived from the client's most recent record except when the value is Unknown and search for a valid value was made within the 12 months prior to the end of the reporting period. See General Notes.  
Overall One year time lag in reporting. PA used an improved methodology in identifying individuals receiving mental health services thereby count may be different from previous years. See General Notes for details.

**Table 2b**

Age None  
Gender None  
Race None  
Overall One year time lag in reporting. PA used an improved methodology in identifying individuals receiving mental health services thereby count may be different from previous years. See General Notes for details.

**Note:**

US totals are based on states reporting.

This table uses data from URS Table 15.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

**State Notes:**

Data on living arrangement were reported as "Not Collected" in MH-TEDS. This table will not be submitted this year.

# CONSUMER SURVEY RESULTS, FY 2016

STATE: Pennsylvania

Indicators	Children: State	Children: U.S. Average	States Reporting	Adults: State	Adults: U.S. Average	States Reporting
Reporting Positively About Access	85.0%	85.2%	47	95.3%	85.6%	50
Reporting Positively About Quality and Appropriateness				96.6%	88.2%	50
Reporting Positively About Outcomes	81.8%	73.5%	47	92.3%	68.5%	50
Reporting on Participation in Treatment Planning	94.0%	90.3%	47	89.0%	81.7%	50
Family Members Reporting High Cultural Sensitivity of Staff	95.2%	94.8%	47			
Reporting positively about General Satisfaction with Services	88.4%	88.5%	48	89.8%	88.3%	50

**Note:** U.S. Average Children & Adult rates are calculated only for states that used a version of the MHSIP Consumer Survey

This table uses data from URS Table 11.

Children/Family	State	U.S.

County of Butler	PO Box 1208, Butler, PA 16003	Butler	\$193,295	\$0

## Pennsylvania

URS Table Number	General Notes
All	The difference between last year's count and this year's is related to improved logic to eliminate non mental health services, such as D&A services, which were incorrectly included in the previous years' count. The inclusion of the incorrect data was discovered during our capacity building year to provide MH-TEDS data through DSS.
2A, 14A, 16, 17	Under the MH-TEDS reporting method, race category is reported as collected at the time of admission, discharge, and update. This is a refinement in PA's business logic for racial categories showing differences across time. PA does not have a separate More Than One Race category in its data collection protocol.
14A, 14B, 15A, 16, 17	For reporting year 2016, the Pennsylvania SMI/SED status is based on the Admission record and not the Discharge or Update record. The logic has not been updated for accurate reporting for Discharge and Update records, resulting in a much lower rate of SMI/SED prevalence than what actually existed for the reporting period. The logic will be updated for future reporting years. This may account for multi-year differences in client count.
17	PA used an improved methodology in identifying individuals receiving mental health services thereby count may be different from previous year's. The difference between last year's count and this year's is related to improved logic to include all mental health clients who are receiving Integrated Treatment and Medication Management EBPs, which were incorrectly excluded in the previous year's count. This inclusion of the incorrect data was discovered during our capacity building year to provide TEDS data through DSS.
