Rhode Island

URS Table Number	General Notes
2, 3, 6	RI has no state psychiatric hospital, but rather adult psychiatric/forensic units in a general hospital and acute inpatient care contracted through private hospitals
2, 3, 6, 12, 14, 15	Only children served through the community mental health centers are included.
3	Table 3 counts the number of state-funded clients in inpatient settings. Because of the Affordable Care Act, RI ended its Respect contract as of December 31, 2013 which provided state funding for these services and the numbers of clients served was reduced.
5A	Due to the Affordable Care and Medicaid expansion funding was shifted from state dollars to Medicaid. RI has been very effective in getting its mental health clients signed up for Medicaid expansion, thus the increase in Medicaid funding in this table. In addition, budget cuts account for a reduction in state funding for services.
5A,6,15	Since we aren't able to identify some of the clients based on SMI diagnosis, the clients are not pulled into the initial data for the table analyses.
8	Funding for this work was moved to the Substance Abuse Block Grant
9, 11, 11A, 16, 19A, 19B, 20A, 20B	Although we attempt to provide children's data for applicable tables, and are able to include children's counts of those served through the Community Mental Health Organizations, we do not have access to many of the measures relating to children in the listed Tables 9: Social Connectedness, 11/11A: Children's Consumer Survey, 16: Children with SED receiving Therapeutic Foster Care, Multi Systemic Therapy, or Family Functional Therapy, 19A:Criminal Justice Involvement, 19B: School attendance, and 20A/B: Hospitalizations for those under 18
