Note:

Are Client Counts Unduplicated? Unduplicated Number of States with Unduplicated Counts 43

This table uses data from URS/DIG Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2009

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 2a

Age Age is defined as the age at the end of the enrollment period (6/30/2010). All records have valid values for age.
Gender All records have valid values for gender.
Race None
Overall Clients have at least one of five AXIS_I codes with a value between : (290 and 290.99) or (293 and 302.99) or (305.1 and 305.10) or (306 and 316.99)

Table 2b

Age None
Gender None

State used Federal SED Definition? No

Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2009
US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Table 3 State Notes:

Age Age is defined as the age at the end of the enrollment period. (6/30/2010). All records have valid values for age
 Overall None
 Gender All records have valid values for gender.

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data for URS/DIG Table 4a.

Arizona

URS Table Number	General Notes
4	The totals for this table were calculated only from adults served in the Community Mental Health Program Service Setting for the 2010 reporting. In 2009, employment data was reported for all adults served in all settings. This change in reporting accounts for the decrease in the number of consumers employed and unemployed between FY09 and FY10.
5A	Arizona implemented an intense screening process for determining Medicaid eligibility. In addition, State funds for the NTXIX SMI and General Mental Health populations were swept from the budget.
6	State funds for the NTXIX SMI and General Mental Health populations were swept from the budget.
6	The Arizona State Hospital's (ASH) adolescent unit closed due to a continued low census. ASH is the only state hospital in Arizona. This lead to decrease in LOS from ASH.
15	The data in this table is self-reported.
16	The State's budget reductions for FY2010 led to a cut in Supported Housing services for new Non-TXIX SMI members.
17	EBP's are implemented in Arizona; however, uniform data elements for each practice are not collected statewide.
18	The State's budget reductions for FY2010 led to new guidelines making only generic type medication as part of covered services. This may have led to a decrease in this table, as new generation medication may be considered brand name medication and not covered by current guidelines. This can also be attributed to a low N in the State Hospital.
