State used Federal SMI Definition? Yes
State used Federal SED Definition? Yes

Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2009
US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

All other Diagnoses	3,838	3,556	7,394	12,317	51.9%	42.3%	31.2%	22.6%	23.9%	29.7%	45
No Diagnosis and Deferred Diagnosis	351	294	645	865	54.4%	37.8%	40.6%	14.6%	1.7%	9.0%	43
TOTAL	12,706	15,773	28,479	51,446	44.6%	36.1%	24.7%	17.3%	100.0%	100.0%	46

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data for URS/DIG Table 4a.

Forensics included in "non forensic" data? No

Note:

US totals are based on states reporting.

This table uses data from URS/DIG Table 20.

State Notes:

The state hospitals provided these numbers and it is based on their own data system. The total percent of readmission within 30 and 180 days for the current FY is based on state hospitals methodology and dataset, which is different from previous years and better captures client movement and readmissions.

Colorado

URS Table Number	General Notes
3	The number of consumers served in state psychiatric hospitals showed a decrease of 22% from 2009 to 2010 mainly because of geriatric and adolescent unit closures at one of the state hospitals.
4	National and state unemployment have been trending higher and this has a disproportionate impact on the mentally ill population.
5	There is a heavy fluctuation in benefit eligibility and movement.
6	The dataset that was used this FY was different from previous years. The state hospital staff provided the analysis and their methodology and dataset better captures consumer movement and their length of stay.
8	Historically, the Division of Behavioral Health (DBH) has under utilized its available Block Grant Administration funds. In FY10, DBH increased this amount to support Block Grant services. Also, in FY09, the Mental Health Planning Council line did not include any of the contracts with Mental Health America found in Table 10. In FY10, the Mental Health Planning Council includes a portion of the contract with mental Health America specific to Mental Health Planning Council activities, while the remainder of that contract is included in Table 10.
20A/20B	The state hospitals provided these numbers and it is based on their own data system. The total percent of readmission within 30 and 180 days for the current FY is based on state hospitals methodology and dataset, which is different from previous years and better captures client movement and readmissions.
