State used Federal SMI Definition? Yes
State used Federal SED Definition? Yes

Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2009
US totals are calculated uniquely for each data element based on only those states who reported clients served.
Regional groupings are based on SAMHSA's Block Grant Regions.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Table 3 State Notes:

URS Table Number	General Notes
3	For the 2009 reporting there was an over count of consumers served in community settings and an undercount of people in the State Psychiatric Hospital accounting for the decrease in community served and increase in state hospital served numbers between 2009 and 2010.
4, 16, 17	We began a new data collection process last year and received data for only 75% of the consumers for whom we should have received data. So, totals for this table will be lower this year than last year, and the unknowns will be higher.
