Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2009
US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

URS Table Number	General Notes
All	Unless otherwise specified, data in all tables includes consumers served in the following settings: State hospital inpatient stays in Adult Mental Health, Secure, and Child/Adolescent Short-Term Mental Health programs. Data for hospital outpatients and non-admits (including 23-hour observation) is not included; however, hospital-operated community services are included with other community services. Authorizations for residential stays in Psychiatric Residential Treatment Facilities (PRTFs). Authorizations for community services for consumers having at least one authorization with Primary or Secondary Diagnostic Category of MH. Counts are unduplicated across settings where such data is combined.
All	Age: Unless otherwise specified the age reported is the consumer's age at the first date active in the State MH system during the SFY. Race: "More Than One Race Reported" includes Multi-Racial. "Race Not Available" includes Other Single Race, Unknown, and not reported. Hispanic/Latino Origin: "Not Available" includes "Unknown" and not reported.
4	Table 4 reports data for community consumers only (including Community Based Inpatient and Outdoor Therapeutic Program reported on "Other Psychiatric Inpatient" and "Residential Treatment Centers" lines of Table 3). Employment Status reported in Table 4 is the latest available for the SFY. Employment Status is collected at admission, at discharge, at re-authorization of services, and at addition of new services to an existing authorization. "Employed" includes Competitive Employment and Community Based Non-Competitive Employment. "Unemployed" includes Unemployed But Available for Work = Yes. "Not in Labor Force" includes Facility Based Non-Competitive Employment and Unemployed But Available for Work = No. "Not Available" includes Not Available and Not Reported.
5A, 5B	"Medicaid (only Medicaid)" includes any consumer in Table 2A for whom a Medicaid MRO/PRTF claim was paid, but no State service encounter or State hospital inpatient episode was reported. "Non-Medicaid Sources (only)" includes any consumer in Table 2A for whom no Medicaid claim was paid, but a State service encounter and/or State hospital inpatient episode was reported. (State hospital inpatient services are not eligible for Medicaid reimbursement.) "People Served by Both Medicaid and Non-Medicaid" includes any consumer in Table 2A for whom both a Medicaid claim was paid and a State service encounter or State hospital inpatient episode was reported. "Medicaid Status Not Available" includes all the remaining consumers in Table 2A.
6	State hospital Child/Adolescent Short-Term Mental Health inpatient programs were closed during the FY. Two 17-year old consumers were active in Adult Mental Health and Secure inpatient programs at the end of the FY.
6	Overall utilization of the "Other Psychiatric Inpatient" setting (known as "Community Based Inpatient" in our system) increased during SFY10 as efforts were made to serve consumers in community Crisis Stabilization Programs rather than in state hospitals. One large provider has chosen to contract with a local hospital to provide these crisis services in an inpatient psychiatric program rather than operating its own Crisis Stabilization Program, and all such consumers are included in the "Other Psychiatric Inpatient" figures.
9, 11, 19A, 19B	Survey data includes community consumers only.
12, 14A, 14B, 16, 17	Community consumers may receive authorization for a core bundle of services using a simplified authorization request type called "Registration." On these authorization requests, consumers were assigned a diagnostic category of "Mental Health," but they were not assigned specific DSM diagnoses; therefore, consumers whose only request type active during the SFY was Registration cannot be designated as SMI or SED. This yields reported counts and percentages of SMI/SED consumers that are artificially low because no "Registration-only" consumers are included. Such consumers could not be included in: Table 12 (SMI-SED percentages of total served), Table 12 (SMI-SED percentages with co-occurring substance abuse), Tables 14A/14B (total SMI-SED consumers served), Table 16 (SMI-SED consumers receiving specified services), Table 17 (SMI consumers receiving specified services)
15	Table 15 reports data for community consumers only (including Community Based Inpatient and Outdoor Therapeutic Program). Living Situation reported in Table 15 is the latest available for the SFY. Living Situation is collected at admission, at discharge, at re-authorization of services, and at addition of new services to an existing authorization. "Residential Care" includes living situations "Residential Care" and "PRTF" where the consumer's age was >= 18. Table 15's category "Children's Residential Treatment" includes living situations "Residential Care" and "PRTF" where the consumer's age was <18. "Crisis Residence" is not included among the response options for living situation in Georgia's information system. "NA" includes living situation Not Reported.
16	"Total unduplicated N - Adults with SMI served" includes only community consumers. "Total unduplicated N - Children with SED" includes only community consumers. See also General Notes for Tables 12, 14A, 14B, 16 & 17.

URS Table Number	General Notes
20A	Data: This table presents duplicated counts of consumers discharged with a non-forensic legal status from State hospital Adult Mental Health, Secure, and Child/Adolescent Short-Term Mental Health inpatient programs 7/1/2009 - 6/30/2010, and those consumers' subsequent readmissions within 30/180 days of discharge. Age: Data is based on the consumer's age at discharge. Race: "Race Not Available" includes "Other Single Race."
