* Reported under Hispanic Ethnicity.

State used Federal SMI Definition? Yes
 State used Federal SED Definition? Yes

Note:
 This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2009
 US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

Louisiana

URS Table Number	General Notes
All	JPHSA= Jefferson Parish Human Services Authority. Data collection is done with a different system in JPHSA.
All	Inpatient Data: PIP= Patient Information Profile
All	Outpatient clinic Data: OMH-IIS/ OBH-IIS
Table 5a	Fiscal year 2010 saw an increase in the percent of children/youth (ages 0-17) with Medicaid listed as a secondary pay source. This resulted from new and expanded Medicaid programs designed to provide more Louisiana youth access to health care.
Table 6	Total Admissions to State Hospital During the fiscal year 2010 decreased due to reduction in hospital beds. For fiscal year 2010, the average LOS of adults discharged from State Hospitals increased due to the discharge of more long term patients in connection with the agency's initiative to right-balance hospital and community resources. The increased focus on community programs has resulted in an increase in availability and quality of community care programs, rather than a heavy reliance on hospitals.
9, 11, 11A	Due to staff shortages and budgetary concerns, the data for the Child/ Adolescent Consumer Survey was not collected for report year 2010. We anticipate having data for the next reporting period.
12	OMH operates under an administrative agreement with Louisiana's Medicaid Authority to serve as technical consultants as the Mental Health Authority.
12	Louisiana does not have a waiver program for mental health services.
16, 17	EBPs are practiced in some areas of the state but not others. The use of fidelity measures differs from region to region within the state. In addition, staff training and the use of toolkits varies across the state. Format for data collection of Age, Gender, Race and Ethnicity for individual services differs from data collection for total count so these have been collapsed into 'unavailable' row. The collection of these specific data elements is improving and it is expected that the state will be able to report this information accurately in the next set of URS tables.
16, 17	Data collection for specific services has improved.
20A, 20B, 21	Louisiana successfully reduced the number of available hospital beds in the state and provided a corresponding increase in the availability of outpatient services.
