## Maryland

URS Table Number	General Notes
6	The MHA has looked into the rising ALOS for children in the state hospitals. It is proposed that those individuals who are having a harder time being admitted to the hospital, either because units available for children in state hospitals were cut in FY09 or due to severity of illness, that once they are admitted are experiencing a longer length of stay. ALOS of adults in state hospitals is growing due to a forensic population served in hospitals as well as the population being more severely mentally ill.
