### **Note:**

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

### **Table 3 State Notes:**

Age Residential treatment center data has been corrected to exclude adult residential treatment centers.  
 Overall None  
 Gender None

### **Table 6 State Notes:**

Hospital Includes state-operated regional treatment centers and community behavioral health hospitals  
 Other Inpatient Includes state-contracted beds in community hospitals and all other psychiatric inpatient services in community hospitals  
 Residential Data has been corrected to exclude adult residential treatment centers  
 Community Minnesota does not have a single point of entry into its public mental health system for community-based Programs. With over 600 providers, Minnesota cannot determine admissions into community programs.  
 Overall Data is for Calendar Year 2009

### Note:

\*In Labor Force is the sum of consumers employed and unemployed.

\*\*With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data for URS/DIG Table 4a.

### State Notes:

Adults receiving Assertive Community Treatment, Rehabilitative Mental Health Services or Day Treatment. Data is from calendar year 2009.

Forensics included in "non forensic" data? No

## Note:

US totals are based on states reporting.

This table uses data from URS/DIG Table 20.

## State Notes:

The federal definition of "state hospital" includes the new state-operated 16-bed community-based behavioral hospitals (CBHH's). Reductions of 30-day readmissions were not projected to decrease because CBHH's include the flexibility of very brief length of stay based on the consumers needs; and not necessarily indicative of inadequate community-base service alternatives or poor discharge planning. This is one of the ways that CBHH's do not function like the old institutional state hospital model where an admission typically had at least a two month length of stay. The SMHA has concerns that this measure, as defined, is not an adequate reflection on Minnesota's efforts to improve its community mental health system, and use short term community psychiatric hospitals.

Forensics included in "non forensic" data? No

**Note:**

US totals are based on states reporting.

This table uses data from URS/DIG Table 20.

State Notes:

None

**STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2008****STATE Minnesota**

	Expenditures: State	Percent of Total Expenditures: State	Expenditures: U.S.	Percent of Total Expenditures: U.S.
State Hospitals-Inpatient	\$202,076,407	24%	\$9,587,729,744	26%
Other 24-Hour Care	\$222,879,029	27%	\$6,700,564,081	18%
Ambulatory/Community	\$402,659,316	48%	\$19,584,306,106	53%
Total	\$833,276,226	-	\$36,687,130,712	-

**Note:**

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2008 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:  
<http://www.nri-inc.org/projects/Profiles/RevenuesExpenditures.cfm>

## Minnesota

URS Table Number	General Notes
All	Tables labeled 2009 are developed using calendar year 2009 data. Tables labeled 2010 are developed using State Fiscal Year 2010 data. (July 1, 2009 through June 30, 2010)
3, 6	Residential Treatment Centers was corrected to exclude Adult RTC, decrease total number served and increase in percentage of those served for Age 0-17. Residential treatment centers includes mental health treatment in centers licensed by the SMHA.
3, 6	Other Psychiatric Inpatient includes regular psychiatric beds and state-contracted beds in community hospitals.
4	Like other states, Minnesota has experienced an economic slowdown resulting in an increased unemployment rate. The rate of unemployment increased by 1% which was equivalent to the statewide unemployment rate increase of .8%. There was a shift in the unemployed category; females (decrease 3%) and males (increase 3%). One explanation is the continue decrease in labor/manufacture field.
6	Minnesota continues to focus on developing home and community services in lieu of institutional placements resulting in fewer patients.
6	Minnesota continues to focus on community behavior health services in lieu of Child and Adolescent Behavioral Health inpatient hospital. In 2008, one of the two Child and Adolescent Hospitals was closed, while the other treats youth with highly complex diagnostic and treatment needs. As demonstrated in the 76% decrease in the number served at the beginning of year and 56% decrease in the number of new admission.
6	Minnesota continues to focus on Community Behavior Health Hospital - Adult in lieu of institutional facility in a large, regional treatment center campus. CBHH are short-term acute psychiatric hospitals.
8	The SMHA has increased its efforts to evaluate quality of mental health services, to train providers in research supported evidence based practices, to implement evidence based practices, to provide technical assistance to providers and payors of mental health services. Due to state budget realities, the SMHA has experience some reduction in state funding for these activities.
9, 11	In 2010 the population from which the sample was drawn are those persons who receive Assertive Community Treatment, Adult Rehabilitative Mental Health Services, or Day Treatment service during calendar year 2009.
11, 11a	Minnesota developed its own Adult and Family survey, based on MHSIP
12, 14	In 2008, Minnesota combined the population served to include the Community Mental Health Reporting System (CMHRS) and the Medicaid Management Information System (MMIS). With the addition of the MMIS claims data, a methodology was developed to determine whether the recipient was likely to have a serious mental illness (SMI) or a severe emotional disorder (SED). The method for children with SED was further refined this year.
12	Minnesota is not able to report the percentage of adults and children served by the SMHA who also have a diagnosis of substance abuse because clients could receive substance abuse treatment by another payor and only one diagnosis is required when Medicaid services are claimed.
15	Data for living situation is reported for adults receiving Assertive Community Treatment, Rehabilitative Mental Health Services or Day Treatment. Data is for Calendar Year 2009.
16	Minnesota is unable to report Children's EBP service because Minnesota does not provide this tool-kit EBP. Minnesota is in the third year of transforming its children's mental health system through development of the Hawaii Model of evidence-based practices.
17	Minnesota is unable to report the number of consumers receiving Integrated Treatment for Co-occurring services due to grant ending, plan to implement new data collection methods.
17	Minnesota is unable to report Children's EBP Family Psychoeducation service because: Minnesota does not provide this tool-kit EBP. Minnesota is in the third year of transforming its children's mental health system through development of the Hawaii Model of evidence-based practices.
17	Minnesota is unable to report Illness Self Management service because: Minnesota does not monitor this service for EBP, also there is not a separate cpt code for Illness Self Management it is bundled with EBP ACT and ARMHS service.

URS Table Number	General Notes
20A	<p>The federal definition of "state hospital" includes the new state-operated 16-bed community-based behavioral hospitals (CBHH's). Reductions of 30-day readmissions were not projected to decrease because CBHH's include the flexibility of very brief length of stay based on the consumers needs; and not necessarily indicative of inadequate community-base service alternatives or poor discharge planning. This is one of the ways that CBHH's do not function like the old institutional state hospital model where an admission typically had at least a two month length of stay. The SMHA has concerns that this measure, as defined, is not an adequate reflection on Minnesota's efforts to improve its community mental health system, and use short term community psychiatric hospitals.</p>

# **ADULT MENTAL HEALTH ACT**

## **Minnesota Statutes 2009, Chapter 245**

### **245.462 Definitions**

#### **Subd. 20. Mental illness.**

- (a) "Mental illness" means an organic disorder of the brain or a clinically significant disorder of thought, mood, perception, orientation, memory, or behavior that is listed in the clinical manual of the International Classification of Diseases (ICD-9-CM), current edition, code range 290.0 to 302.99 or 306.0 to 316.0 or the corresponding code in the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders (DSM-MD), current edition, Axes I, II, or III, and that seriously limits a person's capacity to function in primary aspects of daily living such as personal relations, living arrangements, work, and recreation.
- (b) An "adult with acute mental illness" means an adult who has a mental illness that is serious enough to require prompt intervention.
- (c) For purposes of case management and community support services, a "person with serious and persistent mental illness" means an adult who has a mental illness and meets at least one of the following criteria:
  - (1) the adult has undergone two or more episodes of inpatient care for a mental illness within the preceding 24 months;
  - (2) the adult has experienced a continuous psychiatric hospitalization or residential treatment exceeding six months' duration within the preceding 12 months;
  - (3) the adult has been treated by a crisis team two or more times within the preceding 24 months;
  - (4) the adult:
    - (i) has a diagnosis of schizophrenia, bipolar disorder, major depression, or borderline personality disorder;
    - (ii) indicates a significant impairment in functioning; and
    - (iii) has a written opinion from a mental health professional, in the last three years, stating that the adult is reasonably likely to have future episodes requiring inpatient or residential treatment, of a frequency described in clause (1) or (2), unless ongoing case management or community support services are provided;
  - (5) the adult has, in the last three years, been committed by a court as a person who is mentally ill under chapter 253B, or the adult's commitment has been stayed or continued; or
  - (6) the adult (i) was eligible under clauses (1) to (5), but the specified time period has expired or the adult was eligible as a child under section [245.4871, subdivision 6](#); and (ii) has a written opinion from a mental health professional, in the last three years, stating that the adult is reasonably likely to have future episodes requiring inpatient or residential treatment, of a frequency described in clause (1) or (2), unless ongoing case management or community support services are provided.

## **CHILDREN'S MENTAL HEALTH ACT**

### **Minnesota Statutes 2009, Chapter 245**

#### **245.4871 Definitions.**

##### **Subd. 6. Child with severe emotional disturbance.**

For purposes of eligibility for case management and family community support services, "child with severe emotional disturbance" means a child who has an emotional disturbance and who meets one of the following criteria:

- (1) the child has been admitted within the last three years or is at risk of being admitted to inpatient treatment or residential treatment for an emotional disturbance; or
- (2) the child is a Minnesota resident and receiving inpatient treatment or residential treatment for an emotional disturbance through the interstate compact; or
- (3) the child has one of the following as determined by a mental health professional:
  - (i) psychosis or a clinical depression; or
  - (ii) risk of harming self or others as a result of an emotional disturbance; or
  - (iii) psychopathological symptoms as a result of being a victim of physical or sexual abuse or of psychic trauma within the past year; or
- (4) the child, as a result of an emotional disturbance, has significantly impaired home, school, or community functioning that has lasted at least one year or that, in the written opinion of a mental health professional, presents substantial risk of lasting at least one year.

The term "child with severe emotional disturbance" shall be used only for purposes of county eligibility determinations. In all other written and oral communications, case managers, mental health professional, mental health practitioners, and all other providers of mental health services shall use the term "child eligible for mental health case management" in place of "child with severe emotional disturbance."

##### **Subd. 15 Emotional disturbance.**

"Emotional disturbance" means an organic disorder of the brain or clinically significant disorder of thought, mood, perception, orientation, memory, or behavior that:

- (1) is listed in the clinical manual of the International Classification of Diseases (ICD-9-CM), current edition, code range 290.0 to 302.99 or 306.0 to 316.0 or the corresponding code in the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders (DSM-MD), current edition, Axes I, II, or III; and
- (2) seriously limits a child's capacity to function in primary aspects of daily living such as personal relations, living arrangements, work, school, and recreation.

"Emotional disturbance" is a generic term and is intended to reflect all categories of disorder described in DSM-MD, current edition as "usually first evident in childhood or adolescence."
