Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2009

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

URS Table Number	General Notes
6	The decreased in total admissions to community program during the year and total number of consumers served in other psychiatric inpatient settings at the beginning of the year is a result of the turn over in the number of psychiatrists. In 2009, we had two full time psychiatrists, in the first quarter of FY2010, the number of appointments were reduced drastically for the one doctor servicing both sites.
