State used Federal SMI Definition? No
Adults with a GAF = 50

State used Federal SED Definition? No
Children with a C-GAS = 50

Note:
This table uses data from URS/DIG Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2009

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS/DIG Table 3.

This table uses data from URS/DIG Table3 and 6.

URS Table Number	General Notes
3, 6	There was an increase in the total number of consumers served (including forensic) in state psychiatric hospitals from 2009 to 2010.
4	The decrease in the number of consumers not in labor force between 2009 and 2010 is due to the reduction of clients served among community settings.
5A	The increase in the number of consumers served with non-Medicaid funding from 2009 to 2010 is due to the increase in the number of clients served with private health insurance.
6	The agency reorganized some programs and while some community services closed, resulting in decreased admissions to community programs during the year, decreased number of consumers served in other psychiatric inpatient settings at the beginning of the year, and decreased total admissions to other psychiatric inpatient settings during the year.
12, 14A	Decrease in the total number of consumers with SMI/SED served between 2009 and 2010 is due to a reduction of clients served among state mental health systems.
15	The decrease in the number of consumers served who were in jail/correctional facilities and those who were homeless or in shelters between 2009 and 2010 is due to the agency reorganizing some programs and closing other community services.
16	The increase in the total number of adults with SMI served between 2009 and 2010 is due to an increase in clients served in state hospitals, while the decrease in the total number of children with SED is a result of the agency reorganization.
