

Table 5.77A Reasons for Not Receiving Illicit Drug Treatment in the Past Year among Persons Aged 12 or Older Classified as Needing But Not Receiving Illicit Drug Treatment at a Specialty Facility and Who Felt a Need for Illicit Drug Treatment in the Past Year, by Whether Made an Effort to Get Treatment in the Past Year: Numbers in Thousands, Annual Averages Based on 2003-2004 and 2004-2005

Reason Did Not Receive Illicit Drug Treatment ¹	Total		Made Effort		Made No Effort	
	2003-2004	2004-2005	2003-2004	2004-2005	2003-2004	2004-2005
TOTAL POPULATION	512 ^a	600	159	185	353	415
Cost/Insurance Barriers ²	199	220	*	*	132	134
Stigma ³	108	146	22	25	85 ^a	121
Did Not Feel Need for Treatment/Could Handle the Problem Without Treatment ⁴	77	98	*	*	58	64
Treatment Would Not Help	34	26	2	*	32	25
Did Not Have Time	20	19	8	4	12	15
Did Not Know Where to Go for Treatment	55 ^b	98	13	*	42 ^b	74
Not Ready to Stop Using	186	208	*	*	149	170
Other Access Barriers ⁵	82	97	*	*	31	52

*Low precision; no estimate reported.

NOTE: Respondents were classified as needing treatment for an illicit drug problem if they met at least one of three criteria during the past year: (1) dependent on illicit drugs; (2) abuse of illicit drugs; or (3) received treatment for an illicit drug problem at a specialty facility (i.e., drug and alcohol rehabilitation facilities [inpatient or outpatient], hospitals [inpatient only], and mental health centers). Illicit Drugs include marijuana/hashish, cocaine (including crack), heroin, hallucinogens, inhalants, or prescription-type psychotherapeutics used nonmedically.

NOTE: Needing But Not Receiving Treatment refers to respondents classified as needing treatment for illicit drugs, but have not received treatment for an illicit drug problem at a specialty facility.

NOTE: Felt Need for Treatment includes persons who did not receive but felt they needed treatment for an illicit drug problem, as well as persons who received treatment at a location other than a specialty facility but felt they needed additional treatment.

^a Difference between estimate and 2004-2005 estimate is statistically significant at the 0.05 level.

^b Difference between estimate and 2004-2005 estimate is statistically significant at the 0.01 level.

¹ Respondents could indicate multiple reasons; thus, these response categories are not mutually exclusive.

² Includes reasons of "No health coverage and could not afford cost," "Had health coverage but did not cover treatment or did not cover cost," and other-specify responses of "Could not afford cost; health coverage not indicated."

³ Includes reasons of "Might cause neighbors/community to have negative opinion," "Might have negative effect on job," "Did not want others to find out," and other-specify responses of "Ashamed/embarrassed/afraid" and "Afraid would have trouble with the police/social services."

⁴ Includes reasons of "Did not feel need for treatment," "Could handle the problem without treatment," and other-specify responses of "Could do it with support of family/friends/others," and "Could do it through religion/spirituality."

⁵ Includes reasons of "No transportation/inconvenient," "No program having type of treatment," "No openings in a program," and other-specify responses of "No program had counselors/doctors with whom you were comfortable," "Services desired were unavailable or you were currently ineligible," and "Attempted to get treatment but encountered delays."
