*Low precision; no estimate reported.

NOTE: Illicit Drugs include marijuana/hashish, cocaine (including crack), heroin, hallucinogens, inhalants, or prescription-type psychotherapeutics used nonmedically, based on data from original questions not including methamphetamine items added in 2005 and 2006.

NOTE: Received Illicit Drug Treatment at a Specialty Facility refers to treatment received at a hospital (inpatient), rehabilitation facility (inpatient or outpatient), or mental health center in order to reduce or stop illicit drug use, or for medical problems associated with illicit drug use.

NOTE: If respondents reported that they were currently receiving treatment, they were asked questions regarding the sources of payment for their current treatment; otherwise, questions pertained to the last treatment they received.

¹ Respondents could indicate multiple sources of payment for their last or current treatment; thus, these response categories are not mutually exclusive.
