

Table 6.19C (REVISED) Received Mental Health Treatment/Counseling and/or Illicit Drug or Alcohol Treatment at a Specialty Facility in the Past Year among Persons Aged 18 or Older with Serious Mental Illness and/or Illicit Drug or Alcohol Dependence or Abuse in the Past Year: Standard Errors of Numbers in Thousands, 2008

Serious Mental Illness/Illicit Drug or Alcohol Dependence or Abuse ¹	Mental Health Treatment or Substance Use Treatment at a Specialty Facility ^{2,3}	Mental Health Treatment Only ²	Substance Use Treatment at a Specialty Facility Only ³	Mental Health Treatment and Substance Use Treatment at a Specialty Facility ^{2,3}
EITHER SMI OR DEPENDENCE/ABUSE	346	325	84	101
SMI	264	259	28	64
SMI but not Dependence/Abuse	246	241	9	37
Dependence/Abuse	247	209	83	94
Dependence/Abuse but not SMI	220	186	78	77
Both SMI and Dependence/Abuse	103	87	26	53
NEITHER SMI NOR DEPENDENCE/ABUSE	633	629	74	32

*Low precision; no estimate reported.

NOTE: Some 2008 estimates may differ from previously published estimates due to updates (see Section B.3 in Appendix B of the *Results from the 2011 National Survey on Drug Use and Health: Mental Health Findings*).

NOTE: Serious Mental Illness (SMI) is defined as having a diagnosable mental, behavioral, or emotional disorder, other than a developmental or substance use disorder that met the criteria found in the 4th edition of the *Diagnostic and Statistical Manual of Mental Disorders* (DSM-IV). Estimates for SMI presented in this table may differ from previously published SMI estimates because of revised estimation procedures. For details on the methodology, see the NSDUH short report titled *Revised Estimates of Mental Illness from the National Survey on Drug Use and Health* at <http://samhsa.gov/data/default.aspx>.

NOTE: Dependence or abuse is based on definitions found in the 4th edition of the *Diagnostic and Statistical Manual of Mental Disorders* (DSM-IV).

¹ Illicit Drugs include marijuana/hashish, cocaine (including crack), heroin, hallucinogens, inhalants, or prescription-type psychotherapeutics used nonmedically, based on data from original questions not including methamphetamine items added in 2005 and 2006.

² Mental Health Treatment/Counseling is defined as having received inpatient care or outpatient care or having used prescription medication for problems with emotions, nerves, or mental health. Respondents were not to include treatment for drug or alcohol use. Respondents with unknown treatment/counseling information were excluded. Estimates were based only on responses to items in the Adult Mental Health Service Utilization module.

³ Received Illicit Drug or Alcohol Treatment at a Specialty Facility refers to treatment received at a hospital (inpatient), rehabilitation facility (inpatient or outpatient), or mental health center in order to reduce or stop drug or alcohol use, or for medical problems associated with drug or alcohol use.
