Total	15,096	100.0%	5,216,183	100.0%	21.8	15.9	57

Note:

US totals are based on states reporting.

This table uses data from URS Table 15a.

US penetration rates are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

Age	None
Gender	None
Overall	In FY18 DC did not have access to diagnosis data for consumers served by providers that did not use the DC-subsidized electronic health record, so the discrepancy between the total served and those with SMI/SED diagnoses is largely due to missing data

Access Domain: Adults with SMI and Children with SED Served in State Psychiatric Hospitals by Age and Gender, FY 2018

District of Columbia   **Reporting Period:** 10/1/2017 To: 9/30/2018

What populations are reported?   This is the first year DC is reporting on employment status. We do not have access to all contracted providers' data, so the total for this table does not equal the entire population served.

Number of States Reporting All Clients: 49   Number of States Reporting Some Clients: 9

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
DC	Yes	-	-	-	-
US	42	29	4	5	27

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

State Notes:

Age	None
Gender	None
Overall	This is the first year DC is reporting on employment status. We do not have access to all contracted providers' data, so the total for this table does not equal the entire population served.

Outcomes Domain: Employment Status of Adult Mental Health Consumers Served in the Community by Diagnosis, FY 2018

District of Columbia   **Reporting Period:** 10/1/2018 To: 9/30/2018

This table uses data from URS Table 7

STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures by Funding Sources, 2018

District of Columbia   **Reporting Period:**   10/1/2017 To: 9/30/2018

Funding Source	Ambulatory/Community			State Hospital		
	State	**Percent Total (State)**	**Percent Total (US)**	**State**	**Percent Total (State)**	**Percent Total (US)**
Mental Health Block Grant	$138,860	0.1%	1.6%	-	-	-
Medicaid (Federal, State, and Local)	$6,541,203	4.9%	49.6%	$3,203,417	3.2%	18.4%
Other Federal Funds (e.g., ACF (TANF), CDC, CMS (Medicare), SAMHSA, etc.)	$5,913,244	4.4%	3.0%	$4,059,076	4.1%	2.5%
State Funds	$113,036,592	84.6%	41.3%	$84,315,431	85.5%	74.9%
Local Funds (excluding local Medicaid)	-	-	1.7%	-	-	1.9%
Other	$7,967,322	6.0%	2.8%	$6,994,533	7.1%	2.3%
Total	$133,597,221	100%	100%	$98,572,457	100%	100%

Note:

This table uses data from URS Table 7

Ambulatory/Community includes Primary Prevention, Evidence-Based Practices for Early Serious Mental Illness, and Other 24-Hour Care expenditures

This table does not show expenditures for state central office including Research, Training, and Administration expenses.

Structure Domain: Federal Mental Health Block Grant Expenditures for Non-Direct Service Activities, FY 2018

District of Columbia   **Reporting Period:** 10/1/2017 To: 9/30/2018

Service	Non-Direct Block Grant Expenditures	% Total	US % Total
Information Systems	$130,000	8.1%	5.8%
Infrastructure Support	$673,566	41.9%	26.2%
Partnerships, community outreach, and needs assessment	$499,000	31.1%	20.3%
MHA Planning Council Activities	$10,000	0.6%	4.7%
Quality assurance and improvement	$50,000	3.1%	7.3%
Research and Evaluation	$50,000	3.1%	10.8%
Training and Education	$193,689	12.1%	24.9%
Total	$1,606,255	100.0%	100.0%

Structure Domain: Mental Health Programs Funded By the Federal Mental Health Block Grant, FY 2018

District of Columbia

Reporting Period: 10/1/2017 To: 9/30/2018

District of Columbia did not report any data to populate the table

District of Columbia

URS Table Number	General Notes
6	Data for Other Psychiatric Inpatient Settings is poor, as we do not have a reliable data source for discharge dates.
6	DBH uses provider assignment as the way to count admissions, which means in many cases they are transfers from one provider to another. A large provider closed during FY18, which led to a high number of consumers being transferred between community programs. Data for Other Psychiatric Inpatient Settings is poor, as we do not have a reliable data source for discharge dates. We updated the data for children in residential treatment centers at the beginning of the year. DBH continues to work to minimize the number of children who are served in residential treatment facilities.
7	Overall for Table 7 in FY17, DC did not comprehensively report, as the instructions changed and we did not include complete expenditures. Data for FY18 is more accurate than FY17. FY18 Evidence Base Practices for Early Serious Mental Illness increase, unreported in FY17. FY18 Ambulatory/Community Non-24 Hour Care increase, unreported in FY17. Local Funds Expenditures – since DC is essentially both a state and local entity, all funds in this category were reported under State funds. EBP for ESMI Expenditures – FY17 expenditures were not correctly categorized. Unfortunately, we're not able to submit a more accurate version of 2017's Table 7.
8	In previous years, DBH used mental health block grant funds to fund small initiatives in the community. DBH is taking a new direction with the MHBG to use the block grant at the system level to drive overall systems change. DBH is using the funding to transform the system and make improvements.
10	DC did not have providers/agencies that directly received MGBH funds in FY18.
12	DC's diagnosis data is still incomplete. We rely on self-report data from the providers that do not use the EHR we support. The change in the percent of children/adolescents meeting the Federal definition of SED likely hasn't changed, but we continue to have an incomplete data set. The data for co-occurring diagnoses improved this year, so we were able to report more complete data, which led to an increase in the percentage.
14A	Because the data for diagnosis is incomplete, there may not be an actual change in the demographic makeup of consumers.
16	DBH's overall consumer count declined in FY18, and this accounts for the decreases in specific services. An increasing number of consumers are insured by Managed Care Organizations, and DBH does not have access to this service data.
16A	DC does not provide these services.
21	The decline in non-forensic admission rates may be attributed to an increase in Community Residential Facility referrals and the creation of the Discharge Planning Committee. This collaborative effort within the Department of Behavioral Health includes Saint Elizabeths Hospital, Clinical Services Administration and Community Services Administration and addresses barriers to discharge and the appropriate level of care needed to maintain recovery in the community.
