General Notes FY 2017

Georgia

URS Table Number	General Notes
All	Unless otherwise specified, data in all tables includes consumers served in the following settings: State hospital inpatient stays in Adult Mental Health and Secure (Forensics) programs. Data for hospital outpatients and non-admits (including 23-hour observation) is not included; however, hospital-operated community services are included with other community services. Authorizations for residential stays in Psychiatric Residential Treatment Facilities (PRTFs). Authorizations for community services for consumers are having at least one authorization with Type of Service of MH or MH/SA Co-Occurring.
All	Age unless otherwise specified Individuals age was calculated as of the beginning of the report period (BOP = 7/1/2016). Race: "More Than One Race Reported" includes Multi-Racial. "Race Not Available" includes Other Single Race, Unknown, and not reported. Hispanic/Latino Origin: "Not Available" includes "Unknown" and not reported.
4	Table 4 reports data for community consumers only. Employment Status reported in Table 4 is the latest available for the SFY. Employment Status is collected at admission, at discharge, at re-authorization of services, and at addition of new services to an existing authorization. "Employed" includes Competitive Employment and Community Based Non-Competitive Employment. "Unemployed" includes Unemployed but Available for Work = Yes. "Not in Labor Force" includes Facility Based Non-Competitive Employment and Unemployed but Available for Work = No. "Not Available" includes Not Available and Not Reported.
5A, 5B	"Medicaid (only Medicaid)" includes any consumer in Table 2A for whom a Medicaid MRO/PRTF claim was paid, but no State service encounter was reported. "Non-Medicaid Sources (only)" includes any consumer in Table 2A for whom no Medicaid claim was paid, but a State service encounter was reported. "People Served by Both Medicaid and Non-Medicaid" includes any consumer in Table 2A for whom both a Medicaid claim was paid and a State service encounter was reported. "Medicaid Status Not Available" includes all the remaining consumers in Table 2A.
6	The decrease in average LOS of adults discharged from State Hospitals it was due to the Forensic ALOS that changed significantly with fewer individuals with long length of stays.
9, 11, 19A, 19B	Survey data includes community consumers only.
9, 11, 19A, 19B	C&A Surveys utilized the YSS-F. 2,000 mail surveys were sent at random with only 99 being returned.
12, 14A, 14B, 16, 17	SMI/SED information is collected at the time of authorization for community services. Because of a Federal DOJ settlement, DBHDD is required to collect SPMI and it is used for adults on this table. This yields reported counts and percentages of SMI which may be artificially low because SPMI is reported.
14A	The decrease in total number of Asian consumers with SMI/SED was due to state changed data vendors in FY16 and migration of data caused a data error in race reporting. See notes for Table All.
15	Table 15 reports data for community consumers only. Living Situation reported in Table 15 is the latest available for the SFY. Living Situation is collected at admission, at discharge, at re-authorization of services, and at addition of new services to an existing authorization. Table 15's category "Residential Care" includes living situations "Residential Care" and "PRTF" where the consumer's age was >= 18. Table 15's category "Children's Residential Treatment" includes living situations "Residential Care" and "PRTF" where the consumer's age was <18. "Crisis Residence" is not included among the response options for living situation in Georgia's information system. "NA" includes living situation Not Reported.
16	"Total unduplicated N - Adults with SMI served" includes only community consumers. See also note #8. "Total unduplicated N - Children with SED" includes only community consumers. See also note #8.
17	Report of Illness Self Management was expanded this year to include Individual & Group modalities of Peer Supports and Psychosocial Rehabilitation. This also includes Peer Support Whole Health & Wellness.
20A	Data: This table presents duplicated counts of consumers discharged from a state hospital adult mental health inpatient programs between 1/1/2016 - 12/31/2016, and those consumers' subsequent readmissions within 30/180 days of discharge. Calendar year was used for this table instead of State Fiscal Year because 180 days from the end of the State Fiscal Year would not have passed by the due date of this report. Age: Data is based on the consumer's age at discharge. Race: "Race Not Available" includes "Other Single Race."
20B	Data: This table presents duplicated counts of consumers discharged from a State hospital Forensic/Secure inpatient programs between 1/1/2016 - 12/31/2016, and those consumers' subsequent readmissions within 30/180 days of discharge. Calendar year was used for this table instead of State Fiscal Year because 180 days from the end of the State Fiscal Year would not have passed by the due date of this report. Age: Data is based on the consumer's age at discharge. Race: "Race Not Available" includes "Other Single Race."

URS Table Number	General Notes
20B	Forensics individuals placed on Conditional Release are discharged. These individuals are monitored and if for any reason they are returned to the hospital, it is counted as a readmission.
21	Data from State Hospitals and Community Hospitals are not integrated in a way that allows this table to be completed.
