## Iowa

URS Table Number	General Notes
6, 9, 11/11A, 16, 17, 19A/B	Data are not available for SFY2017.
3, 15A	"Other Psychiatric Inpatient" data are not available for SFY2016.
4, 7, 15	Procedures for reporting non-Medicaid persons served data have improved since SFY2016, resulting in a higher number of people reported in SFY2017.
5A, 7	Procedures for reporting Medicaid data have changed due to the transition of Medicaid services to Managed Care Organizations (MCOs) during FY16. In addition to a change in reporting methods, MCOs may be managing services that potentially could see a reduction or increase in costs or persons served.
12	Data gathered does not identify co-occurring substance abuse and mental illness.
7	The higher amount in the "Local Fund" category is due to regions expanding crisis services and supported living services and improving their reporting methods allowing for more expenditures to be associated with a person. FY16 excluded all costs that could not be associated with a person. The variance from FY16 to FY17 in Medicaid data is due to the transition of Medicaid services to Managed Care Organizations during FY16.
16A	Data by age are unavailable. Current number of individuals served includes adults and children.
