Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance abuse diagnosis	0.2%	5.1%	3.0%	53

**Note**

This table uses data from URS Table 12.

**How are the number of clients with co-occurring disorders counted and calculated?**

We get a count of individuals that qualify as having either SMI or SED and then count those individuals that also have a diagnosis/co-diagnosis for a type substance abuse. We are then able to see what percent of either SMI or SED also have a substance usage disorder compared to the populations of SMI/SED.

## Kansas

URS Table Number	General Notes
4/4A	Employment status is collected for all KS adult mental health consumers at admission. Monthly updates to employment status are collected for adults with SPMI while they are receiving specialized services. Totals represent the employment status of consumers admitted or updated during FY17.
4	The increase in consumers employed can be attributed to multiple supported employment initiatives that were being implemented including: the Enhancing Supported Employment in Kansas (ESEK) grant, community collaborations related to the federal "Employment First" legislation, and provider capacity building related to a pay for performance enhancement implemented by the managed care organizations, which manage Kansas Medicaid. Kansas implemented process and policy improvements to their mental health data systems that resulted in cleaner data that more accurately represents its populations.
6	Total Admissions to Community Program During the Year increase is due to Kansas initiated process and policy improvements to their mental health data systems that resulted in cleaner data that more accurately represents its populations.
12 & 14A	For multi-year edits: Kansas underwent policy and process improvements to its mental health data system, which has resulted in cleaner data that most accurately represents our populations.
15	Living situation is collected for all KS mental health consumers at admission. Monthly updates to living situation are collected only for adults with SPMI and children with SED while they are receiving specialized services.
