**How are the number of clients with co-occurring disorders counted and calculated?**

For % of persons served by the SMHA for the reporting period have a dual diagnosis of mental illness and substance abuse is from AMART - client counts with both MH-rec and SA-rec markers true over all served (Ads:11256/124332); Ch:399/54433). For calculate and count the number of persons with co-occurring disorders: It is SMI and SED + both (MH-rec + SA-rec); rptID="CMHC\_Cert\_B6"(2383/41805) "CMHC\_Cert\_C4"(205/27402). In 2016URS, 3b1 and 3b2 were inaccurately reported; adhoc rather than standardized calculations were used - apologies offered.

## Kentucky

URS Table Number	General Notes
7	For reporting due 12/1/2017, we are reporting on the next consecutive sfy due for the State Mental Health Agency Expenditure Report which is sfy2016. All other URS tables report on sfy2017 data.
7	The data contained in this table include revenue rather than expenditures; Kentucky DBHDID does not track expenditures by service and revenue source. Kentucky reworked table 7 during Feb/Mar2018 following request from NRI via the "CMHS Monthly Data Calls"
8	Category "Info Sys" represents funds for "IPOP". These funds were reported on sfy2016 table 8 as "MHA Data Collection/Reporting". Category "Infrastructure Support" was reported in sfy2016 table8 as "MHA Tech Assistance Activities". New Row "Partnerships, community outreach, and needs assessment" includes funds for travel, meetings, etc. These funds were reported on sfy2016 table 8 as "MHA Administration". New Row "Planning Council Activities" was reported in sfy2016 table8 as "MHA Planning Council Activities". New Row "Quality Assurance and Improvement" represents funds for the Institute for Excellence. New Row "Training and Education" represents funds for ECU staffing. Old Row (sfy2016) "MHA Activities Other Than Those Above" is now reported on new sfy2017. Category "Quality Assurance and Improvement" and "Training and Education". Category "Research and Evaluation": DBHDID funds are not dedicated to Research & Evaluation but fully committed to service and program delivery and evaluation.
8	The Total Non-Direct Services expenditures in 2017 was 29% (\$151,117) less than reported in sfy2016. This is due to the use of other federal grant funds (KICC) prior to expiration (6/30/2017) for IPOP "Information Systems". The use of Block Grant funds for IPOP "Information Systems" row will likely increase in 2018 which would be back to normal practice. A secondary contribution to the reduction was the prioritized used of state general funds on activities (QA at the KY Institute for Excellence) that, in previous years, primarily used block grant funds.
11a	Hispanic Origin: A difference seen between sfy2016 to sfy2017 is due to inaccurate reporting in sfy2016. We've corrected the method and sfy2017 (reporting due 12/1/2017) is again accurate as was on sfy2015.
14a	SMI Definition: As defined in KRS 210.005, "chronic" (mental illness) means that clinically significant symptoms of mental illness have persisted in the individual for a continuous period of at least two (2) years, or that the individual is presently and significantly impaired in his ability to function socially or occupationally or both; and 2. Have a diagnosis of a major mental disorder (other than substance abuse of mental retardation as the sole diagnosis) as included in the DSMIIIR classification under Schizophrenic Disorder, Psychotic Disorders, Mood Disorder, Organic Mental Disorders or Delusional (paranoid) Disorders. Personality disorders shall be considered only when information and history depict that the individual exhibits persistent disability and significant impairment in major areas of community living.
14a	SMI Definition: A child who is under age 18 or under age 21 and was receiving mental health services prior to age 18 and the services must be continued for therapeutic benefit; and 2. Has a clinically significant disorder of thought, mood, perception, orientation, memory, or behavior that is listed in the current edition of the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders; and presents substantial limitations which have persisted for at least one year, or are judged by a mental health professional to be at high risk of continuing for one year without professional intervention in at least two of these five areas: Self Care, Interpersonal Relationships, Family Life, Self-Direction, Education or is a Kentucky resident and is receiving residential treatment for an emotional disability through the interstate compact; or has been removed from the home by the Department for Community Based Services (Kentucky's child welfare agency) and has been unable to maintained in a stable setting due to a behavioral or emotional disability.
15	BHDID does not fund Child's State Psychiatric Hospitals. Gender & Hispanic: 2016 Not Available number higher than 2017; Change maybe due to efforts for providers' reporting of Gender and Ethnicity more completely. 2017 Race Not Available increased.
