**Appropriateness Domain: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/AOD Disorders, FY 2017**

**Michigan**

**Reporting Period:** 10/1/2015 To: 9/30/2016

<b>Adults and Children who meet the Federal Definition of SMI/SED</b>	<b>State</b>	<b>US Average</b>	<b>US Median</b>	<b>States Reporting</b>
Percent of Adults served through the SMHA who meet the Federal definition for SMI	56.8%	72.0%	71.0%	54
Percent of Children served through the SMHA who meet the Federal definition for SED	54.2%	70.9%	68.0%	54

<b>Co-occurring MH and Substance Abuse Consumers</b>	<b>State</b>	<b>US Average</b>	<b>US Median</b>	<b>States Reporting</b>
Percent of Adults served through the SMHA who had a co-occurring MH and AOD disorder	26.2%	25.4%	23.0%	56
Percent of Children served through the SMHA who had a co-occurring MH and AOD disorder	4.3%	6.2%	4.0%	56
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance abuse diagnosis	30.4%	23.3%	21.0%	53
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance abuse diagnosis	6.1%	5.1%	3.0%	53

**Note**

This table uses data from URS Table 12.

**How are the number of clients with co-occurring disorders counted and calculated?**

Agencies select one of the following values in this item. Individuals with a value of 4, 5, or 6 are considered to have a substance abuse disorder. 17.03: Substance Abuse Disorder/SUD (as defined in Section 6107 of the public health code. Act 368 of the Public Health Acts of 1978, being section 333.6107 of the MCL). Indicate the appropriate substance use disorder related status at the time of intake, and subsequently at annual update. (SA). 2= No, individual does not have an SUD; 3= Not evaluated for SUD (e.g., person is an infant, in crisis situation, etc.); 4 = Individual has one or more DSM-IV substance use disorder(s), diagnosis codes 291xx, 292xx, 303xx, 304xx, 305xx, with at least one disorder either active or in partial remission (use within past year); 5 = Individual has one or more DSM-IV substance use disorder(s), diagnosis codes 291xx, 292xx, 303xx, 304xx, 305xx, and all coded substance use disorders are in full remission (no use for one year). This includes cases where the disorder is in full remission and the consumer is on agonist therapy or is in a controlled environment; 6 = Results from a screening or assessment suggest substance use disorder. This includes indications, provisional diagnoses, or "rule-out diagnoses.

**State Notes**

See General Notes.

US totals are based on states reporting.

This table uses data from URS Table 15.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

#### State Notes:

Data are from the FY16 Section 904 Quality Improvement File, Division of Quality Management and Planning. See General Notes.

## Appropriateness Domain: Evidence-Based Practices Reported by SMHAs, FY 2017

Michigan

Reporting Period: 10/1/2015 To: 9/30/2016

Adult EBP Services	State		US		Penetration Rate: % of Consumers Receiving EBP/Estimated SMI		Measuring Fidelity		States Reporting

Gender TOTAL	19,946	56,988	76,934	161,877	26%	44%	12.3%	20.9%	57

What populations are reported? All Clients Number of States Reporting All Clients: 43 Number of States Reporting Some Clients: 13

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
MI	Yes	-	Yes	-	At least yearly
US	43	28	4	5	28

### Note:

\*In Labor Force is the sum of consumers employed and unemployed.

\*\*With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

### State Notes:

Age None

Gender None

Overall Data are from the FY16 Section 904 Quality Improvement File, Division of Quality Management and Planning. See General Notes.

**Outcomes Domain: Employment Status of Adult Mental Health Consumers Served in the Community by Diagnosis, FY 2017**

## Michigan

URS Table Number	General Notes
3	During this year, the funding for state psychiatric inpatient shifted from the local community mental health agencies to the state. This shift resulted in a decrease in reporting. Michigan is developing an improved process for reporting state psychiatric inpatient stays.
4	During this year, Michigan began using BH-TEDS to collect demographic data such as employment. BH-TEDS is designed so that there is no 'unknown' value for employment. In addition, definitions for each choice were clarified through detailed BH-TEDS documentation. For example, 'Not in labor force' was clarified to include only those not looking for or desiring employment.
5A	During this time, the total number of Michigan Medicaid beneficiaries decrease .5% from 3,279,384 to 3,264,225
8	This amounts on this table are significantly higher than FY16 due to the wording change from five service categories on the FY16 table to seven activities on this table.
12	For this year, Michigan has implemented Behavioral Health TEDS which includes a clinical determination of whether the consumer has serious mental illness (SMI) or is a child with serious emotional disturbance (SED). For previous URS tables, Michigan had used diagnosis codes as a proxy for SMI and SED. For FY17, Michigan is using the clinical determination as reported in BH-TEDS.
14A	For this year, Michigan has implemented Behavioral Health TEDS which includes a clinical determination of whether the consumer has serious mental illness (SMI) or if a child has serious emotional disturbance (SED). For previous URS tables, Michigan had used diagnosis codes as a proxy for SMI and SED. For FY17, Michigan is using the clinical determination as reported in BH-TEDS.
15	The reason for the decrease in the number of consumers in a jail or correctional facility (2,348 and 1,883) between the previous and current year is not known.
16	For this year, Michigan has implemented Behavioral Health TEDS which includes a clinical determination of whether the consumer has serious mental illness (SMI) or is a child with serious emotional disturbance (SED). For previous URS tables, Michigan had used diagnosis codes as a proxy for SMI and SED. For FY17, Michigan is using the clinical determination as reported in BH-TEDS.

URS Table Number	General Notes
16 & 17	<p>Michigan Fidelity Assistance Support Team (MIFAST) - Overall Purpose of MIFAST: To ascertain the degree to which an evidence based program has been implemented and functioning for both fidelity and efficacy. As the result of a MIFAST visit, agencies/teams will be able to have an outside perspective of how their EBP is being implemented, and where internal focus can be prioritized for improvement activities. In addition, cumulative information from visits provides a way for the state to see where needs may be in terms of support for improving practices and providing technical assistance across the system. No state staff are part of the initial MIFAST visit, however are the primary person to directly provide post-visit technical assistance, materials, training or further development, consultation, or coaching depending on needs identified during the visit itself. Generally, MIFAST visits are conducted every two years. Depending on available capacity, number of projects within each evidence-based program, and the number of teams available, prioritization may occur where exemplary reviews may result in a re-visit in three years and poor reviews may result in a re-visit in one year. Process for Developing MIFAST: 1. Announcement made at Performance Improvement Steering Committee (PISC) to members noting specific EBP focus area needing MIFAST team established. 2. Develop Workgroup from interested members. a. Workgroup will develop process for evaluating fidelity to the EBP based on the model b. Select and invite other people from network who are known experts in EBP and will be able to assist the process as reviewers, consultants and trainers (be inclusive of peers when possible). 3. Conduct training on the instrument that will guide the MIFAST review visit. a. Use of a standardized tool, for example SAMHSA Self-Assessment toolkits; Fidelity Rating tools developed by the EBP authors; or tool developed by workgroup. b. Conduct Inter-rater reliability between reviewers as part of training. c. Test tool through pilot reviews; revise as necessary. d. Use of a work plan format for reporting results of visit. e. Outline process for follow up to review site and offer of assistance for areas of improvement. 4. Select MIFAST reviewers from those who complete this process. a. Develop contract for reviewers. b. Complete contract process. 5. Announce availability of MIFAST process to the network; 6. Begin case finding for MIFAST visits. Note: The heart of the MIFAST process is to provide "outside eyes" to providers implementing specific EBPs as a way to improve. It is reiterated this is a completely separate process from formal site visits/reviews and/or technical assistance visits from the department. Once initial teams are developed, to add additional reviewers in the future they will spend one year participating in reviews as an "observer" and then as a "secondary reviewer" where their comments/review documents will be compared to lead reviewer - Current MIFASTs (FY18). To date, the MIFAST process has been predominately implemented as part of adult mental health block grant providers although there have been recent efforts to expand this process to substance abuse funded efforts as well. Supported Employment/Individual Placement and Supports (IPS); Dialectical Behavior Therapy (DBT); Integrated Dual Disorder Treatment (IDDT); Assertive Community Treatment (ACT) --being integrated with IDDT; Dual Diagnosis Capability (DDCAT/DDCMHT); Motivational Interviewing. Cognitive Enhancement Therapy (CET); Behavior Supports (Adult focus); Family Psycho-education (FPE); Trauma; MIFAST Development in Process or Planned: Behavior Treatment Plans/Supports (Children, Youth and Adults).</p>
